THE PHILOSOPHER TALKS ON EVERY DAY SUBJECTS.

Lazy Farmers and Thrifty Farmers—Independent and Self-Reliant Families—Something About Women's Rights—A Chicago Book Agent Tackles the Philosopher.

The crops are laid by, but there is no rest for the thrifty farmer, and it is a blessed thing that the thrifty farmer don't want any. A change of work is all the rest he wants. Some folks are constitutionally lazy and work only when they are obliged, and they are actually glad of any excuse to stop. They like to go to mill and they like to go to town, but they don't like to work. I know a farmer who is a good, clever man and behaves himself decently, but he loves to talk so well he can't work. He will talk about the weather for half an hour without stopping. He came to my house the other day to borrow a spade and said he was in a powerful hurry to get back. Without thinking of the consequences I just asked him if the storm damaged his corn any, and that started him. He told about storms and hurricanes from away back to his boyhood, and how a man hung to a sapling and never got nary bruise, but the wind blew his breath away and dident give him time to draw another, and so he died for want of breath, just like a cow dies when she loses her cud. He couldent work his bellowes in such a wind. And he told how another storm blew an old cow head foremost against a poplar tree and stuck both her horns in it so deep they couldent pull her out by the tail, and had to saw her horns off and leave 'em in the tree, and they are there now. And so he kept on and on until I told him I had to go, for I was in a hurry too. That man has lost half of his life in talking. It always scares me to see him coming.

But there is plenty to do between laying by the crop and gathering time. August is the best month to cut the winter's wood. It will burn freer, and even the red oak, that sometimes burns black and goes out, will burn well if cut down in August and seasoned a while. I've got the boys cutting my winter's wood now and will haul it up and stack it. Two of the fire places want wood two and a half foot long and the others will only chamber two foot sticks. So I have the wood cut four feet and five feet, and then we cut it in two as we need it. Fifty cords will run us through a winter. Then there is the stove wood to get up, and that is a candid job for I never let my wife or the girls have any cause of complaint about wood or water in the kitchen. The wood must be dry and split up fine and not too long. I saw up hickory and ash with the cross cut and after splitting it up put it away under shelter, and I haul up the chips from the woods to sprinkle in it. It is not much trouble to prepare a frugal meal if everything is handy. The boys catch the chickens and fix them all ready. I won't tell my women folks do that. It is not a stylish job, and nobody ought to have it to do but beggers nohow, consequent'ens. But I believe in independence. I like to see a family independent and self-reliant. I know families who are always alarmed for fear their cook will quit, and they don't know where they will get another. And the young married folks nowadays are in the same fix about nurses for their babies; well, nursing is hard work, I know—nursing a fretful child is the hardest work I know of. I've had a hand in that business for thirty years and I would'nt go through it again for a house full of gold. Many a night have I walked the floor in my long, white garment with a baby in my arms singing a little monotonous song, while I was so sleepy I could hardly walk straight. Mrs. App had done her share over and over and when she had tried and tried to quiet the little thing, and worried over it, and patted it, and nursed it on both sides, and at last, in a fit of desperation, straightened up and said, "Here, William, take your child." I always understood her, and took her advice promptly; she always said "your child" on such occasions, but whenever I ventured to punish one of em she looked indignant and said "my child." She will let me own em sometimes. I am sorry for these young folks who have about two on hand and are just beginning to get a fair taste of the consequences of connubial bliss. I saw one the other night trying to quiet a little two year-old and after long and patient efforts, he exclaimed in mortal agony: "Oh please, Rosa, do please stop crying for the Lord's sake." I was sorry for him, I was, but I couldent keep from laughing to save my life, and I wanted to exclaim: "Stand up to the rack, my boy, fodder or no fodder, for its your child." There are inventions and inventions, but nursing children and raising them has to be done in the same old way, and happy are they who can go through it with a philosophic smile. It is the great business of life and can't be dodged, and it has its comforts and its rewards—rewards that are sweeter and purer and richer than any, for they come to a man when he is old and needs them. Good children who honor and love their parents are treasures that gold cannot buy, and they make sweet and pleasant the way that leads us to the grave. There is no prettier sight in all nature than an aged couple who live in harmony and have their children and grandchildren around them to give them comfort. Burns never wrote a tenderer verse than

"Now we must totter down, John—
For hand in hand we'll go,
And sleep together at the foot,
John Anderson, my Joe.

Woman's rights and man's rights have nothing to do with such partners. In fact, all human laws are dead letters to the good. They do not need them. Laws are made for the bad, and the frail, and the envious, and the jealous. I was thinking about this the other day in your town when I paid a friendly visit to a good man—a courteous gentleman—away up in the third story where he kept his insurance office, so as to have quiet and time for work. But he can't dodge the callers and importuners even there. I never visit him but what somebody comes and wants something, for they know that he is generous and he is kind. There was a strong minded woman there who had come all the way from Chicago with a petition for woman's rights. She talked pathetically about woman's insignificant condition before the law. She declared that woman was a nonentity, a creature without a soul, an incorporeal thing, a slave, a serf, a nobiliard, and she had prepared a bill for the legislature to pass for woman's relief and protection. She talked about nonentity so much that the colonel stopped her for a moment and said, with emotion: "My good woman, that may all be so up in Chicago, but it is not so at my house—by no means. My wife is an entity—a veritable living, moving creature. She has all the rights she wants, and I have all I want. We are a mutual protection society. It is my right and happy privilege to keep my wife in money, and it is hers to keep me in a state of sweet humility and devotion. Really, madam, we do not need your law, and you must excuse me."

The strong minded woman didn't subside nor wilt, but proceeded with her philanthropy with more vigor than ever, and her black eyes flashed as she expatiated upon her own unfortunate alliance with a preacher who imposed upon her and had her put into the lunatic asylum. Finally the gallant colonel hinted that his time was precious and said he would take her pamphlet and refer it to his lawyer, and if his lawyer said sign it he would sign it. Then she turned her attention to me and asked me to

BETSY HAMILTON.

A SKETCH OF LIFE IN THE BACK-WOODS.

Betsy Says the Thunder and Lightning, Bedbugs and Mosquitos, Crying Children and the Quarreling Old Woman Made Sleep Scarce at Old Miss Raincrow's.

Twix the thunder and lightnin', wind and rain, bedbugs and mosquitoes, cryin' chillun, and the quarrelin' old 'oman, thar wasn't much sleepin' done that night at old Miss Raincrow's.

I got so tickled over the old 'omans slappin' Cal for May Liza, and Cal's smartness in gittin' shet of the spasmy chile, that I got wide awake and couldent go to sleep no more to save my life, and I know in reason the boys in the shed room was awake too kaze I could hear 'em whisperin' and gigglin'. The old 'oman knowed the chile didn't have no spasm, but she never suspicioned Cal. She tuck him in bed longer her and blowed out the taller candle and grumbled about her old man not gittin home 'fore that time o'night, "And I lay ef he do have the enshorance to fetch his-self home drunk, I lay I sober him; and ef you young 'uns dont shet up your mouths a yellin' here this time o'night, I lay I sober some of you 'uns too. They snubbed a while and drapt off to sleep. After while the old man come sneakin' in and crawled under her bed (one of these corded bedsteads) and riz it up in the middle with his back to try to skeer her, but she was as good as her word, she lit out on the floor in her bear feet, jerked down the hickory and let in on him, "kerratchet, kerratchet, kerratchet."

"Ouch! ouch! ouch! Don't, Milly; don't for Massy's sake don't. It's me, it's me, Milly. I tell you it's me," screamed the old man under the bed.

"No I aint you," says old Miss Raincrow; "o', no it aint you," hitting him harder every lick.

"Let me out. Murder! murder! murr--der," shouted the old man loud as he could scream.

The dogs all let in to barkin' and the chillun set up a yell—May Liza, Robert E. Lee, William Henry Forney, Charles M. Shelley, and little John T. Morgan all, when the old man lit out and scampered off some'rs, and we never seed him no more.

It was mighty nigh day, and the old 'oman made up a fire in the fireplace to git breakfast, and we 'uns all riz. She filled the hath plum full of sweet taters, baked some corn dodgers in the skillet, briled some meat on the coals and made some coffee out'n parch meal. The little white headed, dirty faced chaps fretted and cried all the time, and the old 'oman scolded.

Aunt Nancy and maw sot and smoked ther pipes. Aunt Nancy she lowed to old Miss Raincrow:

"Hit's monstrous hard on a body to take keer of so many chillun and keep 'em in vittles and clothes."

"Not so mighty," says she. "I haint got nairy one to spar; I'd work the ends of my fingers off for nairy one of 'em, bad as they is—keep cut'n the fire, Sal; you'd git right in it if I didn't jerk you out. Set down thar, May Liza, you aint made out'n glass. Nobody cant see thu' you. Put down that dog, Jefferson Davis, and fetch the baby here to me. Set down thar, William Henry Forney, and shet your mouth. Your tongue is allers a gwine. Didn't I tell you to fetch me the baby, Jeff? I'll floor you with this here tight'ood knot fust thing you know, and stomp you into the bargain; fetch it here to me this minute. Bless hits little heart of it, mur-ther wouldn't take a dollar for hit. Hit's worth the whole gang put togetherer. Dar-den, honey, don't cry; mur-ther'll give it a sweet tater quick as it's cooked—don't cry. Tell the ladies your name; it's most too big a name for hit's little tengue to wrop around. He named him after John T. Morgan, kaze he was in his reg-ment in the war. Dar-den, honey, don't cry," and she sot him on the floor and shoved the valler pup at him to play with, but John T. Morgan wouldn't hush.

"He named all the boys and I named the ga's. The boys is all named after big, smart men that I don't know nothin' about and never have saw. 'Alabamy-Tetch-me-Not' thar is named for her two gran-maws—Alabamy for my maw, and Missoury for his'n; but after I fell out longer old Zoory, (that's his mammy) I called her 'Alabamy-Tetch-me-Not,' kaze she is so tetchy. She'll cry if you jist look hard at her. May Liza is name Mary for her Aunt Polly, and Liza for her Aunt Jane. May Liza is a twin to Sal. Sal is jist named Sal for short. She goes by the name of Big Sis mostly, and her cousins all calls her Cousin Sis. Come here Sal and lemme fasten your cenf. She's outgrowed everything she's got. G'out yander, William Henry Forney, and tell Jafe Curry to fetch his-self here to me. Jabe he is a twin to Robert E. Lee. They are next to Jefferson Davis—shet up your mouth, Charlie M. Shelley; nobody cant hear theyselves talk for your everlastin' whinin'. I cant give you the tater tel it's cooked. Here take this here piece of bread, and hush. Shelley he is jist a year older'n John T. Morgan, and John T. has mighty nigh catch up to him in size—shet up your mouth, William Henry Forney. How many more times do you want me to tell you about your tongue? Go out thar this minute and tell Jabe Curry if he don't fetch his-self here to me and buss John T. Morgan and stop hina from yellin', I'll make his pap beat him into a frazzle."

But William Henry Forney instead of tellin' him to come to his mammy, went out thar and sot up a fuss longer Jabe Curry about a sweet tater.

"Mur-ther, mur-ther, make Jabe gimme my tater. It's my ta-ter; I had it fuss."

"Hit's not none of his'n no sich a thing, Mur-ther. Mur-ther, make William Henry gimme my string. He took and took my string kase I snatched my sweetater wa'f'nim, and it's none of his'n. It's my tater—it's my very tater."

Then she let in on Jabe with the hickry she'd been a promisin' him, and lowed: "I'll gin you fightin' about a sweet tater—a sweet tater! Now aint a tater a big thing to fight about? Give the tater to your little buddy, and that quick 'fore I beat you tel you won't know who you was named after. Take yourself in that house and nuss your buddy, John T. Morgan, 'fore I stomp the life out'n you. I lay I most kills some of you young 'uns about them taters yit. Them's the fust sweet taters that's been dug out'n the patch, and they are in or a most raven distracted ever 'em. I know in reason they are horngry for taters, but they jist shant fight over 'em. I'll gin 'em something else to do sides fightin' over a sweet tater. You'uns all come in and eat a bite of breakfast. We haint got much, but sich as it is you're welcome to it. Will you be hops to a cup of buttermilk, Squire Hamilton?" says she to pap, and he lowed he would. Then she turned to Jeff: "G'up off'n that chura, Jefferson Davis, and pour the stranger out a cup of buttermilk—and 'for Massy's sake go out yander and make Bulger quit a barkin' so. Set down thar, May Liza, and quit a gazin' plum bank like you never have saw nobody afore in your life—go out'n here 'fore I knock you down. Have a bit of the fry; it's all clean; eat ef you ken, strangers. Didn't I tell you to go out'n here, May Liza; you chillun's enough to run a body distracted. Fan the flies, Sal; standin' thar with your mouth hangin' wide open like you didn't have nairy grain of sense. Skin one of them taters, Miss Hamilton; them's the Spanish; they are sweet'n taters. You'uns will have to drink your coffee th'out sugar. Thar's some sorghum lasses; we'uns haint got no short sweetnin'. Sugar is a ar-tickle I haint never made no use of yit. Here, William Henry Forney, take this here sweet tater and skin it, and give piece of it to Charlie Shelley, and tother part to your little buddy, John T. Morgan; and if you cram it in his mouth hot and burn him I lay I stomp you into the face of the yeth."

UNCLE REMUS.

The Fun and Philosophy of the Old Home—A Tale of Mr. Hawk.

One night the little boy ran into Uncle Remus's cabin singing:

"T-u Turkey, t-u Ti,
T-u Turkey Buzzard's eye!"

Uncle Remus, Daddy Jack, Aunt Tempy, and Tildy were all sitting around the fire, for the Christmas weather was beginning to make itself rather severely felt. As they made room for the child, Daddy Jack flung his head back, and took up the song, beating time with his foot:

"T-u Turky, t-u Ti,
T-u Turky-Buzzard's-eye!
T-u Turky, t-u Ting,
T-u Turky-Buzzud wing!"

"Deyer mighty kuse creeturs," said Tildy, who was sitting rather nearer to Daddy Jack than had been her custom,—a fact to which Aunt Tempy had already called the attention of Uncle Remus by a motion of her head, causing the old man to smile a smile as broad as it was wise. "Deyer mighty kuse, an' I'm fear'd un um," Tildy went on. "Dey look so lonesome hit makes me have de creeps fer ter look at um."

"I ley no hu't-a you," said Daddy Jack, soothingly. "You flut you' han' toze um dey fly way fum dey-dey."

"I dunno 'bout dat," said Tildy. "Deyer har'-headed, an' dat w'at make me 'spize um."

Daddy Jack rubbed the bald place on his head with such a comical air that even Tildy laughed. The old African retained his good humor.

"You watch dem Buzzud," he said after a while, addressing himself particularly to the little boy. "E fly high, 'e fly low, 'e fly way 'bum'. Rain come, 'e flap 'e wings, 'e light 'pon dead pine. Rain fall, 'e hug 'e'f wid 'e wing, 'e scrooge 'e neck up. Rain cease, win' blow, da Buzzud bin-a look ragged. Da Buzzud bin-a wink 'e y-eye, 'e say:

"'Wun da win' ter stop blow un da rain fer stop drip, me go neck my one house. Me mek un tight fer keep da rain out; me pit top on strong fer keep da win' out.'

"Dun da rain dry up un da win' stop. Da Buzzud, 'e stan' 'pon top da dead pine. Wun da sun bin-a shine, 'e no mek um no house no n'tall. 'E say 'pon da dead pine; 'e 'tretch 'e wing wide open: 'e bin dry hisso'f in da sun. 'E hab mek no house sence 'e bin born. 'E one ool bird."

"I-n yit," said Uncle Remus, with a grave, judicial air, "I year tell er one time w'en ole Brer Buzzard want so migh'y fur outer de way wid he notions."

"Me yent yeddy tahlk 'bout dis," Daddy Jack explained.

"I speck not," responded Uncle Remus. "Hit seem fak dat dey wuz one time w'en Mr. Hawk come sailin' 'roun' huntin' fer sump'n n'er t'eat, en he see Brer Buzzard settin' on a dead lim', lookin' mighty lazy en lonesome.

"Mr. Hawk, sezee, 'How you come on, Brer Buzzard?'

"Brer Buzzard, sezee, 'I'm mighty po'ly, Brer Hawk; po'ly en hongry.'

"Mr. Hawk, 'W'at you waitin' yer fer ef you hongry, Brer Buzzard?'

"Brer Buzzard, sezee, 'I'm a waitin' on de Lord.'

"Mr. Hawk, sezee, 'Better run en git yo' brekkus, Brer Buzzard, en den come back en wait.'

"Frer Buzzard, sezee, 'No, Brer Hawk, I'll go bidout my brekkus druther den be biggity 'bout it.'

"Mr. Hawk, he 'low, sezee, 'Well, den, Brer Buzzard, you got yo' way en I got mine. You see dem ar chick'ns down dar in Mr. Man dess-lot? I'm a gwine down dar en git one un um, en den I'll come back yer en wait 'long wid you.'

"Wid dat, Mr. Hawk tuck'n sail off, en Brer Buzzard drop he wings down on de lim' en look mighty lonesome. He sot dar en look mighty lonecome, he did, but he keep one eye on Mr. Hawk.

"Mr. Hawk, he sail 'roun' en 'roun', en he look mighty party. He sail 'roun' en 'roun' 'bove de hoss-lot—'roun' en 'roun'—en bimeby he dart down at chick'ns. He shot up he wings en dart down, he did, des same of he 'uz fired ot'n a gun."

"Watch out, pullets!" exclaimed Tildy, in a tone of warning.

"He dart down, he did," continued Uncle Remus, rubbing his hand thoughtfully across the top of his head, "but stidder he hittin' de chick'ns, he tuck'n hit 'pon de shp'n een' un a fence-rail. He hit dar, he did, en dar he stuck."

"Ah-yi-ee!" exclaimed Daddy Jack.

"Dar he stuck. Brer Buzzard sot en watch 'im. Mr. Hawk aint move. Brer Buzzard set en watch 'im some mo'. Mr. Hawk aint move. He done stone dead. De mo' Brer Buzzard watch 'im de mo' hongrier he git, en bimeby he gedder up he wings, en sorter ocan out he year wid he claw, en 'low, sezee:

"'I know'd de Lord 'uz gwineter pervide.'"

"Truie too!" exclaimed Aunt Tempy. "Taht bin in my min' dat Buzzard got sense lak dat!"

"Dar's wher you missed it, Sis Tempy," said Uncle Remus, gravely. "Brer Buzzard, he tuck'n drap down fum de dead lim', en he lit on Mr. Hawk, en had 'im for brekkus. Hit's a mighty 'roun' about way fer ter git chickin pie, yit nit's lots better dan no way."

"I speck Hawk do tas'e like chicken," remarked Tildy.

"Dey mos' sho'ly does," said Uncle Remus, with emphasis.

Mr. H. C. Erminger, a well well known and highly respected business man of Atlanta, Georgia, says: "On the 15th of August, 1883, in Westminster, S. C., at 12 o'clock at night, I was seized with a violent attack of cholera morbus. Fifteen actions on the bowels occurred in less than six hour; The usual remedies, paregoric, jamaica ginger, etc., were promptly, vigorously and persistently used, but without avail. When I was completely exhausted, Norman's Neutralizing Cordial was thought of and procured, and one dose brought marked relief. A few more effected a complete cure. The medicine certainly saved me from impending death.

A Burglar at Large.

From the Meriwether, Ga., Vindicator.

In another column appears a reward of $100 for the capture of John Jenkins, a most notorious jail breaking colored thief. This Jenkins was captured some time ago while attempting to rob the house of Mr. John G. Brown at night. Being brought to jail he made a daring attempt to burn out. Chained to the floor, he managed to break his shackles, and removing a rock from the wall he came near making his escape. Strong handcuffs were then placed on him and he was chained to the floor. Last Monday morning it was found that Jenkins had been furnished with small files and fain steel saws, with which he had filed off his chains and handcuffs and by assistance from without had escaped. The broken files and saws left behind indicate that a professional had a hand in the jail breaking.

Mr. W. L. Baker, Jr., a prominent young business man of Atlanta, says: While traveling in Alabama I contracted a severe case of chronic diarrhea or inflammation of the stomach. I suffered three months with the most excruciating pains; my food passing through me undigested, and my bowels becoming so sore that the pressure of my clothing would cause additional pain. The drain on my system was so great that I was reduced in weight 30 pounds. I employed the best medical aid; three of the first physicians of Atlanta. Their unceasing efforts to relieve me proved of no avail. They used nearly everything in the drug store for such diseases and frankly told me they could do no more, at the same time giving me one last prescription, containing opium and chloroform, and advised me to go to some mineral spring. I would have taken anything, no matter how bitter the dose. Just then a lady friend sent me a dose of Norman's Neutralizing Cordial, requesting me to procure and use this remedy. The first bottle produced a wonderful change in me, and two more effected what three of the best physicians in Atlanta failed to do—that of restoring me to my former health. I am a well man again, and highly and cheerfully recommend Norman's Cordial to any one suffering with stomach or bowel troubles.

Bill Arp continued from First Page.

sign it and I said I was away from home and dident live in the county and never signed such papers until I got Mrs. Arp's consent and so I took a pamphlet to look at when she opened her gripsack and pulled out two books on woman's rights and wanted to sell them at $1.50 apiece, but we respectfully declined. I dident want to be buying Chicago books from a Chicago woman without consulting Mrs. Arp about it, for Chicago is a bad place for such literature to come from, and I was afraid that the book might work up a divorce in my family. Lastly, she asked us for a dime for the pamphlets, and we gave her a dime and a blessing, and the colonel intimated that if she would depart those coasts she might find more congenial victims.

What a comfort it is that we have not got such women down south, nor such preachers to marry em. When I told her that we did not need such laws in Georgia, that our wives were all happy and contented, and when they did not have laws enough that made them at home, and when my wife wanted anything she simply said, "Bird enacted and it was enacted straightway and forth with. The woman looked astonished and said: "It is not that way where I came from." Maybe it aint.

As she seemed reluctant to go the beneficent colonel took an idea that she was tired and sick and needed refreshment, and so he rang a little bell and ordered a punch for the philanthropic lady; but she respectfully declined by saying that she was by no means old enough to need a stimulant. She was smart, that woman was—and as reasonably good looking as a Chicago woman can be. She would make a good wife for John Jenkins, who said, "I want a wife old enough to have sense, and ugly enough to stay at home." But a Chicago woman wont stay at home. She is going to take the war path anyhow.

Fearful Blood Poison.

Some time ago a colored laborer named Asbury Gardner came to work on my farm. He had the most fearful case of blood poison that I have ever seen, suffering with it for many months. Being unable to purchase medicine or employ a physician, I bought for him three bottles of Swift's Specific. He took the three bottles, and has been hard at work ever since, being perfectly cured. S. S. S. is without doubt the best blood medicine in the country. ANDREW J. HOWARD.

"Vanderbilt's Money Could Not Buy It."

The Acworth News and Farmer of this week says: "Mrs. Elizabeth Baker, living within three miles of Acworth, remarked that Vanderbilt's fortune could not buy from her what six bottles of Swift's Specific, S. S. S. has done for her. Her statement is as follows: "For thirty-one years I have suffered almost death from that horrible disease, scrofula. For years I was unable to do anything in keeping up my domestic affairs. Last October I was induced to try Swift's Specific, and used two bottles, and was so much benefitted that I purchased six more from Messrs. Northcut & Johnson, which has almost entirely relieved me. I feel like a new person, and can do all my own housework. Before I took the S. S. S. my flesh was in burdens, as my entire person was covered with sores, and in this miserable condition I did not care to live. I had tried every known remedy, and my case was generally regarded as incurable. I feel safe in most heartily recommend Swift's Specific to the afflicted."

Messrs. Northcut & Johnson, merchants at Acworth, say: "We know Mrs. Elizabeth Baker personally, we are familiar with her case. She is highly esteemed in this community."

The Sun Cholera Cure.

There is such a fuss made over the sun cholera cure, and some patent medicines are actually being advertisedas containing the ingredients used in it. Reader, do you know what the sun cholera cure is? It contains some of the most deadly poisons known to the medical profession, tincture opium and tincture capsicum. You already know what tincture opium is; tincture capsicum, in overdose, is an irritant and deadly poison, and you are urged to give this to your children. Norman's Neutralizing Cordial contains not one of these or any other deadly drug. It is guaranteed to cure any stomach and bowel disorder, whether in children or adults, and there is no danger of overdosing. It is as pleasant as sweet wine and will not constipate.

No opium in Norman's Neutralizing Cordial.

Bradfield's

Female

Regulator!

It is a special remedy for all diseases pertaining to the womb, and any intelligent woman can cure herself by following the directions. It is especially efficacious in cases of suppressed or painful menstruation, in whites and partial prolapsus. It affords immediate relief and permanently restores the menstrual function. As a remedy to be used during that critical period known as "CHANGE OF LIFE," this invaluable preparation has no rival.

Saved Her Life.

RIDGE, MCINTOSH CO., GA.

DR. J. BRADFIELD—Dear Sir: I have taken several bottles of your Female Regulator for falling of the womb and other diseases combined, of sixteen years standing, and I really believe I am cured entirely, for which please accept my heartfelt thanks and most profound gratitude. I know your medicine saved my life, so you see I cannot speak too highly in its favor. I have recommended it to several of my friends who are suffering as I was. Yours very respectfully,

FOR SALE.

A FIRST-CLASS, WELL-STOCKED FARM.

SITUATED IN COWETA COUNTY, GA., SIX miles Southeast of Newnan on the Griffin and North Alabama Railroad, being forty miles south of Atlanta, containing 724 acres. Of this, 430 acres are cleared and in a fine state of cultivation, and 294 are in the woods, covered with a magnificent forest growth of heavy timber. There are 80 acres of open, well-ditched bottom land, producing in good seasons forty bushels of corn to the acre. All the upland produces well, much of it yielding more than a bale of cotton to the acre. There are two well-fenced pastures, one containing 80 and the other 25 acres, the latter being well set in Bermuda grass. There are thirteen tenant houses on the place, besides a large, modern style, comfortable eight-room dwelling house. Fifty-five acres of woodland adjoining the dwelling house and covered with large forest trees, form a magnificent park and wood pasture. The place is perfectly healthy, and is well watered, having three large creeks running through it, besides numberous springs and branches. The sale of liquor is prohibited by law throughout the county, and stock are not allowed to roam at large, so that no fences are required except for pastures. The place is well known as one of the very best farms in Coweta county.

THE CHOLERA RECORD.

THE PECULIARITIES OF THE DISEASE NOTED.

Report of Consul-General Mason to Secretary Frelinghuysen—The Result of the Observations of the First Weeks of the Plague—The Dead and the Dying.

WASHINGTON, August 9.—Secretary Frelinghuysen furnishes for publication the following dispatch from Frank H. Mason, consul of the United States at Marseilles, France, relative to the cholera at that place and Toulon. The dispatch is dated July 31:

THE REPORT IN FULL.

In deference to what appears to be an urgent demand for definite and authentic information concerning the nature and special characteristics of the cholera epidemic, which is now prevailing in Europe, of the preventive and curative measures which have been adopted in restricting the scourge, and the effects of such measures, I have the honor to submit the following report, which will embody some of the most striking facts that have been observed during the first three weeks of the epidemic.

As was stated in the recent report from this consulate, the city of Marseilles

[illegible] from principle and habit made elaborate and careful sanitary preparations for the summer, before the disease appeared at Toulon. The city was, in fact, clean and well administered, and on Wednesday, the 25th of June, three days after the cholera had been announced at Toulon the aggregate deaths at Marseilles numbered only 18, or less than two-thirds of the normal average death rate for that season. Notwithstanding this favorable situation, the disease was transferred from Toulon to Marseilles within a week after its outbreak in the former city.

WHAT THE RECORD SHOWS.

Although at first pronounced of "benign" or mild type, the disease rapidly assumed malignant and fatal form, as is attested by the following record. From the 30th of June until the 11th of July, four hundred and thirty cases of cholera were officially recorded at Marseilles. Of these [illegible] died and the remaining 136 were, [illegible] the date of the report from which these figures are quoted in various states of convalescence. It therefore appears that notwithstanding all the progress in medical science, and a [illegible] very perfect arrangements for collecting and [illegible] the stricken victims of the scourge, more than two-thirds of those attacked have died, even during the first fortnight of the epidemic, when the sanitary conditions were most favorable. From these two facts, the almost immediate transmission of the disease from Toulon to Marseilles, and the [illegible] rejection death rate of seventy per cent in the earliest stages of the epidemic seem to prove that neither science and medical skill have made any but little substantial progress in dealing with this Asiatic cholera.

THE FATALITY OF THE DISEASE.

The second feature of the present epidemic is the [illegible] deadliness of its attack, as compared with that of the last great cholera summer in 1865, in that year the disease broke out on the 16th of June, and incubated so slowly that until the first of August, the deaths did not exceed the maximum of five daily. The most fatal day of that year gave only a death record of sixty-three. This summer, on the contrary, the death rate rose on the third day after the first outbreak at Marseilles, to eight, and on the eleventh day thereafter to seventy-four. The rapidity and virulence of this development are attributed, in some measure, to the [illegible] dump stilling heat, which has prevailed [illegible] for the past nine days since the 30th of June. Although there are physicians of judgment and experience who maintain that desiccation is the only effective destroyer of choleraic microbes on a large scale, and that the cry "not weather," while it may be unfavorable for the [illegible] already attacked, is most effective in slaying the spread and contagion.

ITS SIMULTANEOUS APPEARANCE.

Another noticeable feature of the present situation has been the simultaneous and sudden appearance of the malady in all parts of the city of Marseilles. Fugitives from here have died at Aix, Grenoble, Nimes and other towns in southern France, but the epidemic has thus far not been kindled there, nor have any persons been attacked by contagion from this city or Toulon. In view of the enormous emigration which has occurred since the outbreak three weeks ago, estimated by good authority at 100,000 persons from Marseilles and 50,000 from Toulon, and the distribution of this vast contingent throughout France, Italy, Switzerland and the Netherlands, it is noteworthy and encouraging that no authenticated case of cholera has occurred among this army of fugitives [illegible] any point north of Grenoble. Although a great many of the Italian working people left the two stricken cities for northern Italy during the early days of the epidemic. The disease has not apparently been carried with them, for it has, it has not yet developed.

THE REAL ORIGIN OF THE CHOLERA.

Concerning the dispute as to the real origin of the choleraic contagion of 1884; absurdly contradictory and peremptory opinions, and dogmas of various official and unofficial physicians, and the internal controversy which has arisen as to whether the responsibility of bringing the Asiatic cholera was first developed place through the Suez canal to Egypt and Europe, rests upon France or England, it is not within the province of this report to pass. The eminent savant, Dr. Koch, has visited the hospitals at Toulon and Marseilles, and demonstrated by post mortem examinations that the disease is true Indian cholera. He has announced that the epidemic will spread to southern France, Germany and other European countries, and has pronounced against the free use of water in cleaning the streets and gutters, as it is by water that the germs of the cholera are best effectively kept alive and transmitted. Most of Dr. Koch's opinions have been promptly attacked by the French government physicians, who believe they have succeeded in showing that the microbe of the cholera, so far from having been discovered by Dr. Koch, was anticipated and described by an Italian physician, Pacini in Tuscany, during the epidemic of 1854. Nothing in all this dispute has yet effectively kept alive and transmitted. Most of Dr. Koch's opinions have been promptly attacked by the French government physicians, who believe they have succeeded in showing that the microbe of the cholera, so far from having been discovered by Dr. Koch, was anticipated and described by an Italian physician, Pacini in Tuscany, during the epidemic of 1854. Nothing in all this dispute has yet added any effectiveness to the means hitherto known for the treatment of cholera patients, and the proportion of death to cases appears to increase rather than diminish.

[illegible]SORY HOPES ABUSED.

A momentary gleam of hope was diffused by the announcement that [illegible] patients had been rescued from the collapse stage of the malady in the hospital at Toulon, by the inhalation of oxygen, but this encouragement has been clouded by the discovery that the effect of this powerful stimulant was but temporary, and that the patients thus treated finally died in the same ratio as those treated by other means. In the meantime commerce, manufactures and all local business of Marseilles and Toulon have been prostrated, and the army of destitute and unemployed has grown and multiplied day by day. It was stated that only a few weeks of cholera a large proportion of the population, many of whom, as is now stated, had consumed during the day preceding their attack nothing but fruit and water. The municipality of Paris had interdicted the import of fresh fruits from the infected districts, and the enormous crop of apricots, peaches, plums and other perishable fruits in that section had become valueless by almost worthless. The poor laborers and their families, deprived of work and driven to the last extremity of hunger, had devoured the fruits in quantities and staked their thirst at the public hydrants. A more fertile and effective stimulant to the cholera epidemic could not be conceived of, and the municipality of Marseilles and Toulon supported, during the past few days by the French government, has begun a systematic defense against this growing peril.

DEFENSES ESTABLISHED.

Soup kitchens have been established for the poor. A permanent free dinner of plain wholesome food has been spread in one of the theaters. Bread and meat are distributed gratis, and labor on certain suspended public works will doubtless be resumed to give remuneration and work to the unemployed. This is apparently the most obvious and effective step that has been taken since the outbreak of the present epidemic, and every large city preparing for an expected visitation of cholera must take into account as the most difficult part of the task the care of its poor, and the throng of decaying people who are inevitably thrown out of work by the sudden suspension of ordinary business. There is no material so easily kindled by pestilence as a throng of idle, hungry people, intimidated by the fear of sudden death, and it is believed to be largely due to the measures which have been thus adopted for feeding the destitute that the death rate at Marseilles, notwithstanding the continued intense sultry heat, has declined from 74 on the 11th of July, to 55 on the 15th, and 56 on the 20th. It is apparently to such plain, rational methods of promoting the public comfort and content, in addition to the control and exodus of people of all classes from the infected city, that Marseilles will be indebted for any diminution of the pestilence which may occur before the autumn counsels, which follows the rains of [illegible]tember and October.

THE SITUATION AT TOULON.

The situation at Toulon is relatively much worse than at Marseilles. The daily death list during the past week has ranged from 50 to 80, and include a growing percentage of cases, illustrating the extreme malignant type of Asiatic cholera, the cholera in [illegible] which the patient dies within three or four hours after being attacked, and after terrible contortions and suffering. At Toulon numerous deaths have recently occurred among people in the highest rank of society. From the old and densely built portion of the city the scourge has spread to the handsome, modern quarters, and to the suburban villas. At the hospitals the percentage of deaths to total cases has steadily increased. Every effort has been made to cleanse and purify the city, but its [illegible]conformation and sewage system are so defective that effective cleansing has been found extremely difficult. Of the 80,000 inhabitants of Toulon, probably two-thirds will have fled before the close of another week.

VESSELS FOR AMERICA.

In compliance with instructions from the department of state, a competent medical inspector, Dr. Emile Engelhardt, has been appointed by this consulate to examine all vessels which may leave this city for any American port during the prevalence of the epidemic. Two ships, bound for New York, whither they are to sail tomorrow, (Sunday) were inspected this afternoon by Dr. Engelhardt. One French steamer, the Britannia, of this port, is the iron ship whose sanitary record is excellent, no cause of contagion or death from any cause having occurred on board since she was built. The cargo taken from this port is small and consists chiefly of boxwood, glycerine, castor oil, wine and other articles little subject to infection. The ship is proceeding from Marseilles to this port in ballast to complete her cargo. She will undergo a quarantine of fifteen days at that port, and is not in consequence likely to offer any danger of contagion on her arrival at New York. The report made by Dr. Engelhardt on the other vessel, the station bark Itasalia, of Castellomare, is not so favorable. Shortly after her arrival at this port from New Orleans, and in the first days of the epidemic, one man was taken ill with cholera, who was reported to a special hospital, and is said to have recovered. The whole incoming crew was discharged and a new crew sent to the ship from Naples together with their clothing, and ships' stores. No other sickness took place on board.

THE PLAGUE SPREADING.

MARSEILLES, August 9.—The area effected by the cholera epidemic is beyond doubt widening. Yesterday there were five deaths at Arles and five at Salin, a village of only 400 inhabitants near Arles. At Cette there were seven deaths, at Bozier two, at Carcassone two, and at Bordeaux one. At Cassen such a panic prevails that parents have forgotten their children, whom the sisters of charity are caring for at the hospital. A priest from Avignon, where several deaths from cholera had occurred, died at Gliers. The comrades who accompanied him from Avignon have been isolated. At Vegine, in the department of Isere, with a population of 750, there were five deaths yesterday, and thirty persons were under treatment. Numerous cases of sickness, which are supposed to be cholera, are reported at other points of Ardeche.

KOCH ON CHOLERA.

PERLIN, August 9.—Dr. Koch, the great authority on cholera, stated in a lecture last night that he was convinced that the delta of the Ganges was the real home of the disease. Religious pilgrimages in India greatly promoted the spread of the cholera. An improved water supply, Dr. Koch thought, was the best means of checking the disease.

ROACH'S MEN AT WORK.

Fifteen Hundred Men Pass Through the Gates.

CHESTER, Pa., August 9.—The usual number of men, fifteen hundred, filed through the gate at Roach's shipyard this morning, and went to work as if the fire had not occurred. Those who work about the yard, known as the outside men, were set to clearing away the debris of the fire. An examination of the tools show them to be somewhat damaged, but not enough to render them unfit for use. Temporary sheds are being erected, the tools repaired, and Mr. Roach says the burned machine shop will be in operation in ten days. He is upon the ground overseeing the operations. The other shops belonging to the establishment have facilities to go on with the work, so that there will be no cessation of operations. Plans for a new building have already been made, the material is upon the ground, and a busy scene is presented. As yet it is impossible to estimate the loss. The adjustment of the losses will not interfere with the progress upon either the government cruisers or the merchant ships now under construction.

John Roach to-day telegraphed to Admiral Simpson, president of the advisory board, relative to the fire in his yard at Chester, Pa., last night, that no damage was done to any part of the government work. The fire was confined to the planing shop. Naval constructor Hanscom telegraphs the work on the cruisers will be delayed slightly, not at all on the Dolphin. No government property was destroyed by the fire.

AFTER TWENTY YEARS.

A Deserter Writes to His Wife Who Has Married Again.

XENIA, Ohio, August 9.—In the summer of 1862 a company of volunteers was recruited at Washington, Ohio. John Levey cast his fortunes with the company, leaving behind a family consisting of his wife and three children. He remained with his comrades until the return trip from Arkansas to Port. On this trip many soldiers became dissatisfied and desertions were frequent. Before the fleet had arrived at Young's Point Levey deserted. He did not come home, and the war was over and no news of him was obtained upon his returning soldiers. As the years rolled by it was believed that he had died. Mrs. Levey continued to mourn the death of her husband until October 20th, 1870. On that day she was married to James Ellis. The two sons and daughter had grown up and were married and doing well. A day or two ago a letter was received from the long missing husband and father. The letter reveals the fact that for twenty years Levey has been living in the counties of Pike, Jackson and Scioto, and never beyond a day's travel from his wife and children. He had often passed through Washington but never took the trouble to find up his family. He has been working as a farm hand, has accumulated nothing, and is old and poor. The letter does not indicate any disposition to disturb the present family relations of his wife, but merely inquires about his children and manifests a desire to see them.

THE ACCIDENTS OF A DAY.

Too Narrow Escape of a Train Load of Volunteers.

CARLISLE, Pa., August 9.—Conductor Frank Small and Fireman Fuller Thompson, were killed by an accident to the train on the Gettysburg and Harrisburg railroad, near this place, at noon today. The train consisted of an engine and seven cars, and contained companies from the western part of the state, belonging to the Tenth and Fifteenth regiments of the National Guards, returning from the state encampment at Gettysburg. While the train was running slowly, nearing Carlisle Junction, the rails suddenly spread, throwing the engine and tender down an embankment, and causing four of the cars to leave the track. The engineer jumped and lodged in a small tree, escaping with a scalded foot and slight bruises. Conductor Frank Small jumped, but fell under the moving car and was killed. Fireman Fuller Thompson remained on the engine and was buried under the wreck. His body has not been recovered. None of the passengers were injured.

RELICS OF THE ARCTIC.

The Reports of the Greely Party Turned Over to General Hancock.

NEW YORK, August 9.—The original papers, comprising the record of Greely's Arctic search and the most interesting of the relics of that ill-fated expedition, were to-day delivered into the custody of Major-General Hancock, at Governor's island, by Lieutenant Sebree, of the Thetis. There were our boxes containing clothing, papers and curiosities, accumulated by the different members of the crew. Many of them were preserved as memorials of the dead heroes who collected them in the Arctic regions. In the bottom of the launch lay the broken top gallan mast and the tattered American flag which Lieutenant Greely planted in the ice as a signal of distress, which was the means of their escape by the relief party. Across the boxes lay a sled, about five feet in length, and three in width. It was one manufactured by Lieutenant Greely, from the broken pieces of a small boat, and fastened together with strong strips of skin. It was lined with strips of iron. The official records of Lieutenant Greely's search of two years were inclosed in the boxes, strapped to a large plank which would have served as a buoy and kept the reports from being lost in case of a collision.

A Tumor on His Shoulder.

CAMDEN, S. C., August 9.—[Special.]—A colored man named Wesley Williams suffered a long time with a tumor on his shoulder. It continued to grow until it reached enormous proportions, but he refused to let the doctors attempt to remove it. A few weeks ago he submitted to an operation and it was cut into, but no effort was made to remove it, because instant death would have been the consequence. Williams lingered until yesterday and died. To-day the gruesome cut away the mammoth growth of diseased flesh and the tumor was found to weigh exactly twenty pounds. It extended all around, over and under, and in front of the shoulder. It has been preserved in alcohol as a curiosity.

Compelled to Perjure Himself.

DUBLIN, August 9.—The United Ireland announces that Thomas Casey, the approver in the Maamtrasnan murder case, has declared in the presence of the archbishop of Tuam, and the members of his flock, that Mr. Bolton, solicitor for the crown, compelled him to swear against Myles Joyce and others, charged with that crime, [illegible]stion were innocent. THE FRENCH IN KELUNG.

THE FRENCH INAUGURATE WAR WITH CHINA.

Lord Northbrook Given Plenary Powers in Egypt—A Plot to Escape in Marseilles—Spain Mollifying the Pope—The French Congress—News From the Old World.

LONDON, August 9.—A dispatch from Shanghai of this date, to the Reuter telegram company, states that the French squadron, under Admiral Lespes, consisting of five vessels, had bombarded and captured the town of Kelung, on the island of Formosa.

A Paris dispatch says the occupation of Kelung by the French is officially confirmed.

It is stated semi-officially that negotiations between M. Patenotre, French minister in China, and Li Hung Chung, only resulted in an offer on the part of China of an illusory indemnity. The time given to China to accept the French ultimatum expired August 4th. France was obliged to support her demands by seizing a guarantee. Admiral Lespes therefore, on August 5, occupied the port of Kelung and the coal mines in the vicinity. M. Patenotre has informed Li Hung Chung that the duration of the French occupation depends entirely upon Tsung Li Yamen, which can shorten it by paying the indemnity of 80,000,000 francs in ten yearly installments.

LONDON, August 9.—A dispatch to the Times from Foo Chow says: President Arthur is mediating between France and China and has telegraphed instructions to John Russell Young, United States minister at Pekin.

A Foo Chow dispatch to the Ledger-Times of today's date, says that France refuses to submit the settlement of France-Chinese difficulty to mediation. Advices from Pekin to August 8 state that Tsung Li Yamen has regained confidence, and will disregard the chronic menace of the French fleet. French prestige can only be recovered by serious operations.

A Plot to Escape.

MARSEILLES, August 9.—A plot to escape has just been discovered among the prisoners at the prison in the Boulevard Char. Twenty-five men, who had in some way secured crowbars and files, arranged a plan to kill the wardens and break their way out. One of the number, however, informed the prison authorities of what was going to happen, and the rest of them were put in irons. The plot is said to have originated in the prisoners' fear of cholera.

Confiscation Protested Against.

CITY OF MEXICO, August 9.—The independent press protests against the confiscation of the hospital of Jesus by the government. This hospital was endowed by the will of the conqueror, Cortez. The pretext for confiscation is found in the non-fulfillment of the terms of the will, which endowed the convent and school of theology as well as the hospital. The first two mentioned institutions have been established. The hospital has hitherto been considered a sacred institution.

Mollifying the Pope.

ROME, August 9.—In consequence of the declaration made by Spain to Italy, concerning the speech of Senor Pidal y Mon, minister of agriculture and commerce, in the Spanish chamber of deputies, in favor of the restoration of the temporal power, the pope threatens to withdraw the nuncio at Madrid. Spain has sent the marquis of Molinet to Rome to pacify the pope.

The French Congress.

PARIS, August 9.—The congress, after two hours of parliament at Versailles, continued the discussion of the revision of the constitution. Two fresh amendments proclaiming the sovereignty of the congress were defeated by a large majority.

The French Conquer.

VERSAILLES, August 9.—The congress of the two houses of parliament continued the discussion of the committee's report on the bill for the revision of the constitution. Further scenes of a disorderly character occurred. M. Dauphin was obliged to leave the tribune. The discussion was declared closed.

England and Egypt.

LONDON, August 9.—The Standard this morning states that the government has largely increased the special powers of Lord Northbrook, who is to go to Egypt as high commissioner, and prepare Himself by personal examination to advise the government what steps should then be taken.

Death of Engineer Platen.

SAVANNAH, GA., August 9.—[Special.]—Charles G. Platen, the well known civil engineer and author of the county map of Chatham, which was patented, died at the savannah hospital last evening and was buried this afternoon. He leaves a wife and two children, one, Hugo Platen, who has always been regarded as a prodigy.

The Relief of Gordon.

LONDON, August 9.—The government has decided to limit the Gordon relief expedition by way of the Nile to Khartoum, to 2,500 men, partly English and partly Egyptian, and seven river boats. The whole expedition will be under the command of General Stephenson, command-in-chief of the English forces in Egypt. In reaching Khartoum, the relief contingents from the tribes of the western Soudan will join the expedition.

Expatriation in Russia.

PERLIN, August 9.—Hundreds of Russians, who were recently expelled from Germany, have returned. The police, on the presentation of properly visaed passports permit them to become residents. The National Gazette estimates that 2,000 Russians were expelled. The St. Petersburg Herald, the organ of the German colony in that city, complains that 15,000 Germans in St. Petersburg are exposed to similar expulsion if the Russian government is inclined to make reprisals.

BAD BLOOD IN BIRMINGHAM.

Election Rows Lingering a Week After the Time is Over.

BIRMINGHAM, August 9.—[Special.]—The election last Monday created a great deal of bad blood, and especially among the cand dates for the sheriff's office. The matter culminated to-day in several personal difficulties between various candidates. First, Hagood, independent, who was defeated, approached Burwell, a warm friend of Truss, the democrat who was elected, and said Burwell must retract words spoken during the campaign. Burwell refused. He and Hagood hitched. Truss being present separated them, and doing so accidentally gouged Hagood in the eye. Hagood attempted to draw a pistol to shoot Truss, but Truss got the drop on him. Friends interfered, separating them. An hour later Truss and Hagood's brother-in-law were conversing over the matter, when Joseph Eubank, who was also an independent candidate for sheriff, came up and charged Truss with doing wrong during the campaign. Truss called Eubank a liar. Eubank, who had a knife in his hand, cut Truss in the shoulder. Truss drew a pistol and fired at Eubank, missing him. Officers immediately arrested the parties and quelled the difficulty. Great excitement prevailed for a while.

The Richland County Delegates.

COLUMBIA, S. C., August 9.—[Special.]—The Richland county delegates, who made such a gallant fight for Colonel F. W. McMaster in the Spartanburg convention, have returned home. They cannot conceal their disappointment. The old-time opposition to Columbia was revived and caused McMaster's defeat. The Greenville News, at the eleventh hour, aimed a "poisoned shaft" at our favorite candidate and is doubtless now exulting at his discomfiture. Greenville, in the person of Colonel W. H. Perry, bears off the honor. He is a safe, good man, but inordinately economical. The people of Greenville are as much elated as are the people of Richland chagrined at the result.

The Clay County Democracy.

FORT GAINES, August 9.—[Special.]—The democracy of Clay county, in mass meeting, to-day, appointed W. A. Graham, J. D. Rambo, S. A. McLendon and J. H. Jenkins, delegates to the gubernatorial convention, and C. V. Morris, G. G. Lark, Philip Tinsley and J. N. Bigbie to the congressional convention. Resolutions were adopted indorsing Governor McDaniel and the present state house officers, with Colonel R. M. Hardeman for treasurer, also indorsing Hon. H. G. Turner and recommending his nomination.

FOREIGN BREVITIES.

At Pressburg Captain Hofer, of the infantry, who had gained fame in several campaigns, shot his wife dead and then committed suicide.

Senor Zorilla, the Spanish agitator, is now in London.

The meeting of Prince Bismarck and Count Kalnoky, the Austro-Hungarian prime minister at Salzburg, is fixed for the first week in September.

Prince Bismarck has sent his son to watch the proceedings of the congress of the French senate and chamber of deputies.

GENERAL JAMES CHESTNUT.

His Withdrawal from Public Life—How He Spends His Days.

COLUMBIA, S. C., August 9.—[Special.]—General James Chestnut, of Camden, one of the most distinguished citizens of South Carolina, had a long talk last evening with your correspondent. He says that he has forever withdrawn from public life, and has no political aspirations. He is now enjoying a mellow old age in retirement with his family at the elegant manor in Camden. A finished scholar and a keen observer of men and things, a cogent reasoner and eminently fair and considerate, truthful, and entirely devoid of party tides, a methodical thinker and worker, possessing an extraordinary retentive memory, having figured for more than half a century in the state's history—these and other qualifications are his, and they fit him for the great work he has assumed. General Chestnut has been for many years engaged in writing a complete history of South Carolina. It will cover a period beginning in colonial times, and coming down to the present moment. The work will contain some valuable information not given in any other book. It will, he says, be completed in the course of the next six or eight months. General Chestnut has gone to the Warm springs, of North Carolina, to rest for a few weeks.

Personal Matters in South Carolina.

COLUMBIA, S. C., August 9.—[Special.]—Governor Thompson is taking a much needed rest in the mountains.

Mr. F. B. Orchard, the popular salesman with the firm of Chamberlin, Johnson & Co., of Atlanta, is spending a few weeks with his family in this city.

Mr. Cyrus Fink, an eminent astronomer of Maryland, is in Columbia, on business.

Dr. Joseph LeConte, the distinguished man of science, formerly a professor in the South Carolina college, now a member of the faculty of the California university, left here for home a few days ago.

Miss Woodrow, daughter of Dr. James Woodrow, of this city, a most estimable and accomplished young lady, has gone all the way to China to marry a young man, who is a successful missionary in that distant country.

Grandison Warren's Mule.

CAMDEN, S. C., August 9.—[Special]—Grandison Warren, colored, living a few miles east of Camden, has what is probably one of the oldest mules in the world. Mr. J. Shannon owned the same mule about thirty-four years ago, and it was then an old mule. It has passed through several hands since then, and from what old man Grandison says the mule is now about fifty-four years old. The animal is still a pretty good worker, and a hard kicker, and bids fair to hold his own for a hundred or two years to come. He goes by the classic cognomen of Cato.

Murdered by Indians.

HELENA, Mont., August 9.—Linn McFarland, a prominent sheep man of Judith Basin, was found dead yesterday thirty-five miles north of Billings, in the smouldering ruins of a log house. Nobody was about the place. McFarland was on his way to Billings with a team, and appeared to have stopped to feed. The murder is suspected to have probably been committed by Indians, as several roving bands have been in that vicinity lately.

The Deadly Kerosene.

CHICAGO, August 9.—Katie Curry, a girl of 7 years, in the absence of her mother this afternoon, attempted to kindle a fire with kerosene. Her clothes ignited and before assistance could be rendered she was burned to a crisp, the flesh dropping from her bones. She is lying in great agony and cannot live.

Butler Declares His Intentions.

BOSTON, August 9.—In an interview to-day, General Butler said of the democratic leaders: "I see they complain that I had deserted the democratic party. There is no way of satisfying them. The last time they complained it was that I had captured the democratic organization. By it so, then. I have only to let my captives loose. I owe a great debt of gratitude to the people of Massachusetts, but none to any democratic organization, state or national. In no campaign did I ever receive aid from the democratic national organization, nor did any national democrat from outside the state ever come here or say a word in my favor, or in favor of the democratic party while I was the unanimous nominee. Whenever I have any use for the organization of the Massachusetts democracy I will get it."

A Political Conference.

ST. LOUIS, August 9.—A private conference of about fifty republicans from various parts of the state was held here yesterday afternoon, to discuss the practicability of uniting all the opposition political elements in Missouri or an independent state ticket against the so-called bourbon democracy in the coming election. A full interchange of views was had, and the whole matter was referred to a committee to investigate and report to the state central committee.

The Kansas Prohibitionists.

LAWRENCE, Kansas, August 9.—The state central committee of the prohibition party met here yesterday, and will issue a call for a convention to meet in Lawrence, September 24, to put in nomination a full state ticket and presidential electors.

Rosin Swindlers in Savannah.

SAVANNAH, Ga., August 9.—[Special.]—Considerable complaint exists here among the naval stores men in regard to the false packing of rosin. The board of trade to-day adopted a resolution denouncing the practice and pledging their united efforts to apprehend parties guilty of shipping such resin, and bringing them to punishment.

The English Cholera.

LONDON, August 9.—The English cholera has appeared in several districts of Lancashire, and is making considerable headway. The number of persons stricken with it exceeds 200, and five deaths have occurred. The doctors attribute the outbreak to the excessive heat and the use of improper articles of food.

Rome to Walk Again.

ROME, Ga., August 9.—[Special.]—A twelve hour walking match has been arranged to take place at an early day. Piper, Aycock, Ebling, Whitmore, White, Whitfield, and others, will take part.

While Mr. E. R. Smith was cleaning a breech-loading gun, it was accidentally discharged and dangerously wounded a negro girl passing by.

Alcorn Seeks Public Life Again.

VICKSBURG, Miss., August 9.—Ex-Governor Alcorn, in response to a call from both political parties of Coahoma county, has agreed to accept the nomination for congress in the third district.

Three Crazy Cranks.

NEW YORK, August 9.—Adolph Neilson, Theodore Goelzet and Ambrose Watts, who were arrested last night for posting on the streets socialist proclamations, refering to the execution of Reinmacifer, the Viennese socialist, were fined $5 each in the Tombs police court to-day, for the violation of the corporation ordinances. Justice Schwab, the communist, paid their fines.

An Aged Rascal.

HUNTERS PT., L. I., August 9.—Henry Swassy, 71 years of age, outraged Jessie Parker, the 7 year old daughter of William Parker, Islip, L. I., in a clump of wood near the village. The girl was found insensible by her father. Great excitement prevails and the brute is threatened with lynching. He was arrested by Constable Benjamine and locked up.

His Head Severed From His Body.

ALBANY, N. Y., August 9.—Richard Torley, aged 65 years, an old resident of the city, was found under a train of coal cars here with his head severed from his body. It is supposed that he went to sleep on the track.

Madison Beats Eatonton.

MADISON, August 9.—[Special]—Madison beat Eatonton in a game of baseball by 12 to 0.

The Delegation From Chatham.

SAVANNAH, August 9.—[Special.]—The following delegation from Chatham to the gubernatorial convention will leave for Atlanta on Tuesday night: J. J. Dale, D. C. Bacon, W. E. Chandler, R. H. Richardson, J. J. McDonough, J. E. Wooten, A. R. Lawton, Jr., John Screase and George S. Haines.

The Trial of Willis Hawkins.

ANNISTON, Ala., August 9.—[Special.]—Hon. Willis A. Hawkins, E. G. Shannons, and Willis A. Hawkins, Jr., of Americus, Ga., have arrived in the city to be ready for the trial of young Hawkins, which comes off at Jacksonville next week.

Yellow Fever in Havana.

HAVANA, August 9.—There were twenty-five deaths from yellow fever in this city during the past week.

THE WORLD OF SPORT.

GOSSIP AND COMMENT ON PROMINENT ITEMS FOR THE WEEK.

The Record of Maud S. Questioned—Rapid Transatlantic Travel—A Man Who Got Scared in Atlanta—In the Ring—A Sharp, Fierce Fight—Other Sporting Matters.

From a regular correspondent.

PHILADELPHIA, August 9.—The exploit of the Oregon against Transatlantic time has only served to quicken the public interest in the new test to be made in the Quaker city of the prowess of Jay-Eye-See. People in the railway stations and the hotel lobbies are all talking of "Maud S."—"the Oregon" "Gabe Case," "Jay-Eye-See" and local events which conspire to made Philadelphia at present the focus of sporting interests in the east. There is no reasonable connection between Maud S. and the Oregon except it be that one is the fleetest craft on the Atlantic and the other the teutest bit of horseflesh on this continent, nor is Gabe Case in any way related by ownership or otherwise to Jay-Eye-See. The owner of the dethroned king of the trotting turf, Mr. Jerome J. Case does intend, however.

DOUBTING MAUD S'S RECORD.

There is a good deal of mystery about Maud S.'s boasted 2:09½ at Cleveland after all. Shrewd observers ask why did Vanderbilt send the mare so quietly such a distance? If there was a bet, as her manager claims, why should the better's name be such a secret? Would the public have ever known anything about it at all, if Maud's time had not been better than that of Jay-Eye-See? Was the time 2:09½ accurate in such matters, says emphatically that Maud's time in her world-admired performance was 2:10, and not one

SHORT TALKS WITH THE SCRIBES OF THE COUNTRY PRESS.

A Large Wildcat Killed in Columbia County—The Tax Returns of Wilkes County—County Representation at New Orleans Exposition—The Reunion of Confederates.

Deputy Sheriff John Hall went to feed the prisoners at the jail, in Greensboro. A negro, named Joe Howell, confined in one of the cells, attacked him and endeavored to escape. Mr. Hall grasped him, and with the assistance of others who came up, overpowered the negro. He was tied, when he made every feint of being crazy and yelled and swore in the most blasphemous way. A little cold water poured continuously on him had the effect of bringing him to his senses. Howell was in jail on a charge of burglary, and during the past few days has been making pretences of madness.

The taxable property of Harris county increased nearly $50,000 in value last year, according to the books of Receiver Gordon.

The courthouse of Harris county is to be extensively repaired.

One of the first official acts of Judge Williams when elected ordinary of Harris county, nearly sixteen years ago, was to set out the fine oaks in the courthouse yard and build the fence around it.

The Barnesville Gazette: A few nights ago two popular young ladies visiting a well known, prominent citizen of this place, on Thomaston street, retired to their room on the second floor after tea. They slept soundly until near midnight, when one of them awoke and quietly made an effort to find the door, so as to get some water in the hall. Being turned around in the room, she missed the door, but, feeling for it, accidentally caught hold of the hand of the other young lady, who was sweetly sleeping with her arm thrown across her forehead and hand hanging over the side of the bed. This suddenly awoke the young lady No. 2, who began screaming at the top of her voice for "help;" young lady No. 3, became frightened and began crying out "murder;" so loud and frightful were their screams that the whole neighborhood were awakened and alarmed, some running over to their rescue only to find that the young ladies were frightened at each other.

Mr. T. E. Carson, of Hollonville, one of the most prominent men of Pike county, ran away with his step-daughter this week. He left a wife and several children to lament his wickedness.

Mr. L. L. Campbell has resigned the office of clerk of the superior court of Murray county, and Mr. Charles N. King has been appointed by the ordinary to fill his unexpired term.

Some of the Wilkes farmers raise all the tobacco they use.

Mr. Wyley M. Pope says he is the oldest living buggy-driver in Wilkes county. He owned the second buggy he ever knew in Wilkes. His grandfather owned the first.

If no disaster overtakes the cotton crop, Montezuma expects to receive between 10,000 and 12,000 bales this season.

Meriwether Vindicator: We hope that an effort will be made by our leading agricultural men of Meriwether properly represented at the great New Orleans exposition. We have many products worthy of display, and which would attract special attention anywhere. Mr. Henry E. Harris, of the second district, tells us of a poplar tree on Cane creek that measures twenty-six feet in circumference. This would give a diameter of eight and one-fourth feet. A section of that tree, or a plank sawed from it would be a wonderful exhibit. By all means let our people get up specimens of the country's productiveness and resources and have them forwarded to the exposition managers.

Mr. John Newson killed a wildcat Tuesday morning on Sandy Run creek, near McCormick's mill, Columbia county, which measured three feet from the tip of its nose to the end of its tail. It was on exhibition at the depot Tuesday evening.

Crop reports, says the Oglethorpe Echo, especially of cotton, since the showers of the past ten days have been falling, make us feel good and hopeful of a better time coming. It is generally said that the staple plant has never been known to take on fruit later, and though the weed is not so very large, and yet it is good size and very heavy with forms and bolls. If no disaster befalls it, the crop will almost equal the big crop of '82, which was the largest since the war.

On last Tuesday morning about one o'clock a kitchen on the premises of Mrs. R. W. Griffin was destroyed by fire. The night was calm and damp, and no other damage was done. But for these favorable circumstances the main residence would have been destroyed. The fire is supposed to have originated from coals left by the cook in the stove over night.

The tax receiver of Wilkes county shows the following returns: Grand total of white and colored 2,605 polls, 9 lawyers, 17 doctors, 1 dentist, 1,678 hands employed. Number acres 293,232; value $1,186,633. Town property $340,176. Money and solvent debts $705,694. Merchandise $84,852. Bonds $160,880. Capital invested in mining $700. Household and kitchen furniture $119,302. Jewelry, etc., $18,157. Live stock $251,490. Plantation and mechanical tools, etc., $73,709. Cotton and corn held for sale $7,291; other property not enumerated, $27,781, making a grand total of $3,086,311; showing an increase over last year of $98,711, not including the defaulter's property, which, if added, makes the increase $101,897. The principal loss and gain was in the following items respectively: Value of land increased $90,060, town property increased $18,000, bonds increased $18,000, household furniture increased $18,000, merchandise increased $21,000, money and solvent notes decreased $18,000 cotton and corn for sale decreased $36,000.

At the reunion or the Oglethorpe confederates the following letter was read from General Tige Anderson, who is now in Tuscaloosa, Alabama:

My Old Comrades: Yours of July 28, containing your cordial invitation to the reunion of camp Jeny K. 8th Georgia regiment, is received. It would afford me a very great pleasure indeed, and one that I would dearly prize, could I accept your kind invitation, but my business engagements are such that I cannot be with you in body, but my heart will be there. I can think of no greater pleasure that could be afforded me than to meet and mingle with those gallant souls who so long obeyed my commandr, and who were ever ready, in sunshine or storm, to illustrate our grand old states. It will always be a proud recollection to me that in the days that tried men's souls, I had the distinguished honor to command a brigade of troops whose record compares most favorably even with Napoleon's old guard. In your enjoyment of the day, recollect me to my old comrades—men I love most dearly for their privations and devotion to duty and country, and their loyalty to the old brigade commander. May He who rules the destinies of all keep each one of you in His care, is the prayer of your old comrade and commander.

An effort is being made to reorganize the Fort Gaines Guards, and a list is in circulation for membership, in the hands of Mr. G. D. Speight.

Hon. H. G. Turner and family, are at Gainesville, Ga.

Montezuma Record: The stump of an old Bay pole was dug out of the excavation for the cistern Wednesday, and a discussion arose among some of our older citizens as to what flag pole is indicated by the flag pole placed there just before the war, but we believe it was finally decided that it belonged to the one placed there during the fair four years ago.

Monroe Advertiser: It seems that the stoning of the house of Messrs. McAfee and Sandifer was not caused, as we stated last week, by child-play. After the Advertiser went to press Mr. Sandefer informed us that that supposition was incorrect. This much, he said, was true: The neighbors who were there for the purpose of helping in the search for the prowlers, indulged in a fusilade of mischievous throwing of stones each other. The children seeing it, did the same, and were caught at it and were then supposed to be the perpetrators of all the mischief. But they were placed in a room and watched. But they were prevented from throwing the stones which they had all in the house as before. This relieved the children of the suspicion which they had brought on themselves. The stone throwing was kept up till every cowing, making three days in all, with some intermissions. Friday evening, Mr. Sandefer proceeded on his way to Forsyth, and on to his home to spend the night. He had not set all the negroes off the place; and he and one or two friends kept watch all night. But not a stone was thrown, and the throwing has not been resumed since. The cause, Mr. Sandefer says, is as much involved in mystery as ever. It certainly is a remarkable procedure.

Professor R. J. Strozier, who has had charge of Culleden institute, has been elected principal of a school in Eastman, and will probably accept.

On Friday last a negro boy accidentally killed himself on Mr. Pink Person's place, in the southwestern part of Monroe county. He had been hunting, and had leaned his gun against a fodder stack. As he was taking it again the hammer got caught in the fodder in some way and the gun was discharged, the contents entering his body and killing him.

Americus Recorder: Mr. W. W. Moore was standing in about a foot of water fishing in the Muckalee the other day, when he heard a noise behind him. Turning, he discovered a large blunt-tail moccasin. The snake showed fight every time a stick was thrown at it, and Mr. Moore embraced a sapling, which gave him a better view of his majesty. The snake soon left, quickly followed by Moore and his fish.

Wednesday morning another alarm of fire was sounded at the usual hour, between three and four o'clock, in Americus. It proved to be the dwelling house of Mr. B. W. Patterson, near Muckalee bridge. The fire caught near the chimney, and it is not known whether it was an accident or the work of an incendiary.

Montezuma Record: It is generally conceded that Colonel Fort, of Macon, was the man who bored the first artesian well in this state, but such is not the case. Colonel Anthony Murphy, of Atlanta, Georgia, and while in that city last week, he gave us an account of how he accomplished it. It was several years ago that Mr. Murphy was engaged in the lumber business near Eastman and he found it difficult to supply water sufficient for his boilers. Finally he decided to dig a well deep enough to supply a sufficient and permanent amount of water, and with this idea in view he contracted on his artesian well. He first dug down in the earth the old-fashioned way of well digging in a considerable depth, and then he reduced the size of the well and kept still deeper. He then got a two-inch augur, welded it on an iron rod, and he bored down the full length of the rod. He then got a three-inch augur, welded it on iron rod, and after going down some distance further he struck a stream of water which flowed above ground and supplied its boilers bountifully. Mr. Murphy moved to Atlanta afterward, where he has accumulated considerable property, but says the water still flows from his old artesian well.

Early County News: Coroner Butler furnishes us with the following as the verdict of the jury of inquest held over the body of the negro Aaron Cochman:

GEORGIA, EARLY COUNTY—We, the jury summoned by the coroner of Early county, to sit in inquest on the body of Aaron Cochman, deceased, after investigating and hearing the evidence therein, and that of said Aaron Cochman on his death bed, being called by citizens of Early county, who rose in mass and indignation on account of the crime of the said Aaron Cochman—for an attempt to commit a rape on a respectable white woman, and for committing the act on a colored woman, and for burning the dwelling house of a citizen of said county. We, the jury aforesaid, therefore, find the killing of the said Aaron Cochman to be justifiable homicide.

[Signed] R. C. Smith, Foreman; W. C. Cook, John T. Williams, H. H. Buchanan, A. E. Mulligan, C. Black, S. L. Bush, S. McGlamery, J. W. Speight.

JAMES BUTLER, Coroner.

Mr. H. N. Jenkins solicitor of patents, Washington D. C., officially reports to THE CONSTITUTION the following complete list of patents granted Georgia inventors for the week ending August 5, 1884: W. E. Hinn, Americus, device for stringing and filling papers; H. C. and H. P. Camp, Athens, churn motor; W. S. Haywood Savannah, combined calender, paper weight, etc.; C. E. and E. G. Smith, Washington, permutation padlock.

The jury commissioners, of Gwinnett, reduced the number of names in the jury box from eleven to six hundred.

The annual camp meeting two miles north of Lawrenceville, begins next Wednesday.

An election will be ordered in Gwinnett county on the courthouse bond question, but the "no bonds" side will likely prevail as the law requires that two thirds of the voters of the county, estimated by the number of voters in the late general election, shall declare themselves in favor of "bonds" before the authorities can issue the same.

STATE POLITICS.

H. H. Carlton for Senator.

MONROE, Ga., August 9.—[Special.]—The nominating convention of the twenty-seventh senatorial district met here yesterday, and did fair to hold a long and protracted session, three counties claiming the nomination under the rotation system. Forty ballots were had, resulting as follows: H. H. Carlton, of Cheshe, 27.

A. C. McCalla, of Rockdale, 4.

J. R. Lyle, of Oconee, 2.

After the fortieth ballot the following resolution was passed:

That we recommend the rotation system to govern all future conventions, and that the counties name the senator in the following order: Clarke, Rockdale, Oconee, Walton, Newton.

After this resolution was passed, Clarke county arose and the name of H. H. Carlton, and he received the unanimous vote of the convention.

Members of the house will be nominated here next Tuesday. There never was so much excitement over the race as there is here now. Local option will be the leading issue in the campaign.

The Legislative Race.

SANDERSVILLE, Ga., August 9.—[Special.]—A primary election to determine who shall be the nominees of the democratic party for the legislature in this county will occur on the 27th inst. Messrs. Hines, Pringle, Mays and Wicker are the candidates now in the field, and they are bestirring themselves.

Colonel J. N. Gilmore is being vigorously urged to put forward his claims for presidential elector in this congressional district. Washington county should appreciate such a compliment bestowed on Colonel Gilmore. He served this senatorial district with credit in the state senate eight or ten years ago, and for several successive terms creditably filled the mayor's chair in this place.

The Floyd Convention.

ROME, Ga., August 9.—[Special.]—The primary convention held here yesterday was largely attended. The following gentlemen were elected to represent the Rome district in the county convention which assembles on Monday: D. P. Hamilton, Max Meyerhardt, John J. Black, I. W. Gilbert, J. F. Sanklin, J. Sproul, M. M. Pepper, J. S. Wyatt, W. E. Garden and H. F. Hillyer. The convention Monday will nominate candidates for the legislature and gubernatorial and congressional delegates.

The Thirty-Seventh Senatorial District.

BAINBRIDGE, Ga., August 9.—[Special.]—Heard and Carrol counties have appointed delegates to the senatorial convention that will be held on the 28th instant to nominate a senator from the thirty-seventh.

These delegates favored Colonel John H. Traylor, of Troup. Troup will also send a solid delegation for him. This insures his nomination on first ballot.

Political Turmoil in Oglethorpe.

LEXINGTON, Ga., August 9.—[Special.]—The political problem in our county seems to be one that cannot be solved by any of the rules known to mathematics. For every office in the county there are twice as many candidates as can be elected. So Chairman J. T. Oliver has issued a call for the executive committee of the county to meet at the courthouse next Friday, 15th, to see if something cannot be done in settling matters.

Fannin in the Convention.

MORGANTON, Fannin county, Ga., August 9.—Dr. T. T. Fain, T. R. Trammell and J. E. Alsobrook were appointed delegates to the gubernatorial convention. McDaniel and Robert Hardeman for treasurer, indorsed.

H. J. Davenport, were named as delegates to the ninth congressional convention. All have the power to appoint proxies.

Colonel Simms for the Legislature.

COVINGTON, Ga., August 9.—[Special.]—At a mass meeting of the people of this (Newton) county, Colonel A. H. Simms was selected to represent the people in the next legislature. Colonel Simms will run as the prohibition candidate, and will receive the support of all who are friendly to the cause of temperance.

For the House.

MADISON, August 9.—[Special.]—Grant D. Perry has been nominated by the democrats for the house in this county. Mr. Perry is a young farmer, well-known in the county.

A Funeral Procession.

LAWRENCEVILLE, Ga., August 9.—[Special.]—A funeral procession passed through town Thursday from Stone Mountain, on its way to Fairview cemetery, bearing the remains of Miss Adair, a young lady from the state of Florida, who died on a visit to Fairview meeting, now being conducted by Messrs. Strickland and Bradshaw, at Stone Mountain last Monday.

Mr. Newt Robinson's only child was buried in the town cemetery yesterday, having been brought from Atlanta where it died.

Mr. C. L. Vaughan, has been confined to his bed for two weeks with intermittent fever.

Churches that want to get rid of their pastor now say that they "assist him to abdicate." This is somewhat similar to the phrase used by a colored deacon in a similar case. He said, "We sent him in his resignation."

GEORGIA BY WIRE.

THE NEWS OF THE STATE BRIEFLY CHRONICLED.

A Douglas County Man Invents a Steam Road Worker—Murray County People Petitioning for a Removal of the County Site—The Thirty-Seventh Senatorial District.

MADISON, Ga., August 9.—[Special.]—Colonel D. C. Ashley and Dr. J. G. Mallette, two south Georgia citizens of prominence, stopped in Madison on their way to Tallulah and the gubernatorial convention. They will ably represent Lowndes county in the convention.

The 25th District Senatorship.

THOMASTON, Ga., August 9.—[Special.]—Colonel J. Y. Allen was nominated on Wednesday, the 6th, to represent the twenty-fifth senatorial district in the Georgia senate. Majority over Dr. J. C. Drake, 287. He will make an able representative.

The Rockdale Jury List.

CONYERS, Ga., August 9.—[Special.]—The jury commissioners of this county have completed their revision of the jury box. They have selected eighty-six as grand jurors, and one hundred and eighty-two as traverse jurors, to serve during the next two years.

Clearing the Dockets.

CARTERSVILLE, Ga., August 9.—[Special.]—The July term of the superior court adjourned yesterday. A great many cases were disposed of at this term. Judge Fain seems determined to clear the docket as rapidly as possible and will hold an adjourned term commencing on the third Monday in October.

The County Site of Murray.

SPRING PLACE, August 9.—[Special.]—Judge Ramsey is busy examining the petitions for an election to move the county site, and will order an election at once if a sufficient number of legal names appear on the petitions. It is hardly probable that a majority of the people will vote for removal—two-thirds as required by law.

A GEORGIA INVENTION.

A Douglas County Man Invents a Steam Road Worker.

DOUGLASVILLE, Ga., August 9.—[Special.]—Douglas county comes to the front in the field of invention. Mr. W. D. Yenger, who resides near Chapel Hill, has invented a steam road-worker which is destined to revolutionize work in this particular, and make good roads the rule and not the exception. His model, which he has constructed of wood, shows a road engine the traction gear of which, while exceedingly ingenious, is very simple, and is different from any arrangement for similar purposes that we have ever seen; connected with this engine by suitable gearing is a system of grading plows and scrapes for working the roads. By an ingenious device these plows and scrapes can be raised or lowered, widened or contracted to meet the necessities of "the lay of the land." The history of the machine seems to be perfect, and its practicability cannot therefore be questioned. It is confidently expected that this invention when brought into use will do the work of fifty men at one tenth of the cost. Should this expectation be realized, the problem of working the roads will be solved, as it will be economy then for each county to purchase one or more of these machines. It is the intention of Mr. Yenger to make arrangements at once for the manufacture of these machines so soon as he has secured his letter's patent. Practical machinists would do well to examine his model, and secure if possible an interest in the invention.

BUSINESS IN GAINESVILLE.

Bailey's New Building—A Rising Business Man.

GAINESVILLE, August 9.—[Special.]—The painters are now putting the finishing touches on Mr. J. W. Bailey's brick building, southwest corner of the public square, and it shows up handsomely. It is a double front about fifty feet and about one hundred feet deep, two stories high. It is trimmed with granite, with a sheet iron cornice, and will be lit up with gas. The show windows are magnificent, being a single glass. French plate, six by eleven feet in size. The lower floor and the upper floor, except four law offices which have been cut off, will be occupied by Messrs Barnes, Madden and Evans, and will be filled with dry goods and grocery stores. The second and upper story are connected by stair-cases and elevator, and upon the whole it is one of the most convenient arranged business houses in the city. The office is nicely fitted up and will be a pleasant place for the hard worked actors inviting. The new firm that is now working in it, composed of two firms who have been in business for some time and have consolidated, to-wit: Mr. J. A. Madden and Messrs. J. R. Barnes & Co. Mr. Madden came here about two years ago from Mayesville, after a successful business career there, and has prospered very well here for a new man.

J. R. Barnes came here from Marietta about nine years ago, with limited means, and commenced business on the obscure place, off the square, but by close attention to business and diligence he has risen step by step, until it is conveniently one of the most popular merchant in Gainesville. His honesty is always recognized, when there is any leading people in town and his store is the favorite place of the ladies, this is the fact that he selects his goods with great care, his stock being replete at all times with the best goods that can be bought and he has a genial, pleasant gentleman to deal with. Richas deservingly built up a good trade in Gainesville and is still reaching out further. They will buy cotton by the wholesale and indeed deal largely in everything in every department of their business.

They have counted stock and are now consolidating their goods in their new quarters, and on Monday next they will throw open their doors wide to open for the accommodation of their customers. Frank A. Watkins & Company will occupy one of the store rooms vacated by Messrs. J. R. Barnes & Company, and Messrs. Parker & Brother the other two. By the way Watkins & Company are a new firm, They will deal in dry goods and groceries.

Miss Ida Oliver, a charming and accomplished belle of Georgia Baptist seminary, is visiting friends in the city.

THE GEORGIA SURVIVORS.

Arrival of the Main Body by the South Carolina Railway Last Night.

From the Charleston Courier.

The main body of the survivors of the First Georgia regiment arrived at midnight last night, a few having come in yesterday morning, and others being expected this morning. The party last night would have arrived in their special train immediately behind the regular 9.50 p. m. train, but an outgoing freight train became disabled by the engine slipping an eccentric seven miles from Charleston and the two incoming trains were delayed three hours. The survivors came in good time and spirits, however, and were in charge of the prompt and popular Captain Joseph White, who acted best all along the route. The following survivors were in the party that arrived last night: J. H. Smith, Walker Smith, G. W. Center, Dr. J. H. Sneed, of the Quitman Guards, of Forsyth, Georgia. Of the Quitman Guards, 25 were organized at present, and there were also Lieutenant S. B. Head, R. W. Hammond, E. L. Mott and J. R. King. Among the invited guests were several survivors B. H. Napier, B. F. Hill, James Fletcher, G. A. Pye and E. W. Hill. Among the invited guests who were not soldiers were Master Charles Smith, Miss Greta Thomas and Miss Maude McCowan. Of the Southern Rights Guards, of Fort Valley, Ga., were Captain Houser and J. T. Butler. Of the Gate City Guard there were Colonel Evan P. Howell, A. W. Hunter and William Mitchell. Of the Oglethorpe Infantry are William Jones and Dr. W. G. Hill. Of the Newnan Guard were Daniel Swint and five others. Of the Walker Light Infantry there were Henry Rogers and Daniel Hill. Many of the survivors participated in the fighting in Charleston harbor during the late war, and are visiting it for the first time since the days. As the train neared the city they discussed with animated voices the scenes and circumstances of the war, and many declared they could hardly realize that they were back on the historic ground. Colonel Evan P. Howell, of the ATLANTA CONSTITUTION, a loyal corporal gallantly in the defense of Charleston in summer for the first time in the war last night. He was accompanied by his lady, who expressed himself as highly pleased to visit the city of the sea once more. He will remain until Monday.

The train landed the excursionists at the wharf of the South Carolina railway, where they stepped from the cars to the Sappho and were immediately taken in charge by the committee of reception and escorted to the Battery. They will barbecue to the New Brighton and enjoy the surf and breeze for several days.

The veterans reached the New Brighton hotel shortly after 1 a. m., and in limb and mind and spirit they showed by their long voyage. Preparations had been made for their reception and a bountiful supper was ready for those who desired to refresh themselves. Some of them devoted their attention to the rations others took a hasty plunge into the surf and then all hands retired to rest.

The remainder of the regiment will arrive this morning. Those who have arrived will devote the day to getting their bearings and preparing for an excursion to Fort Sumter this afternoon. A general meeting of the survivors will be held this morning at the New Brighton and the following officers will be elected for the ensuing year: President, Colonel Evan P. Howell, of Atlanta; vice presidents, Captain Joseph White, of Charleston, and Captain Houser, of Fort Valley; secretary and treasurer, Captain J. T. Butler, of Fort Valley; executive committee, Captain Houser, Colonel Howell, Captain White, Captain Butler and Lieutenant S. B. Head, of Atlanta.

BUSINESS IN GAINESVILLE.

Bailey's New Building—A Rising Business Man.

GAINESVILLE, August 9.—[Special.]—The painters are now putting the finishing touches on Mr. J. W. Bailey's brick building, southwest corner of the public square, and it shows up handsomely. It is a double front about fifty feet and about one hundred feet deep, two stories high. It is trimmed with granite, with a sheet iron cornice, and will be lit up with gas. The show windows are magnificent, being a single glass. French plate, six by eleven feet in size. The lower floor and the upper floor, except four law offices which have been cut off, will be occupied by Messrs Barnes, Madden and Evans, and will be filled with dry goods and grocery stores. The second and upper story are connected by stair-cases and elevator, and upon the whole it is one of the most convenient arranged business houses in the city. The office is nicely fitted up and will be a pleasant place for the hard worked actors inviting. The new firm that is now working in it, composed of two firms who have been in business for some time and have consolidated, to-wit: Mr. J. A. Madden and Messrs. J. R. Barnes & Co. Mr. Madden came here about two years ago from Mayesville, after a successful business career there, and has prospered very well here for a new man.

J. R. Barnes came here from Marietta about nine years ago, with limited means, and commenced business on the obscure place, off the square, but by close attention to business and diligence he has risen step by step, until it is conveniently one of the most popular merchant in Gainesville. His honesty is always recognized, when there is any leading people in town and his store is the favorite place of the ladies, this is the fact that he selects his goods with great care, his stock being replete at all times with the best goods that can be bought and he has a genial, pleasant gentleman to deal with. Richas deservingly built up a good trade in Gainesville and is still reaching out further. They will buy cotton by the wholesale and indeed deal largely in everything in every department of their business.

They have counted stock and are now consolidating their goods in their new quarters, and on Monday next they will throw open their doors wide to open for the accommodation of their customers. Frank A. Watkins & Company will occupy one of the store rooms vacated by Messrs. J. R. Barnes & Company, and Messrs. Parker & Brother the other two. By the way Watkins & Company are a new firm, They will deal in dry goods and groceries.

Miss Ida Oliver, a charming and accomplished belle of Georgia Baptist seminary, is visiting friends in the city.

THE GEORGIA SURVIVORS.

Arrival of the Main Body by the South Carolina Railway Last Night.

From the Charleston Courier.

The main body of the survivors of the First Georgia regiment arrived at midnight last night, a few having come in yesterday morning, and others being expected this morning. The party last night would have arrived in their special train immediately behind the regular 9.50 p. m. train, but an outgoing freight train became disabled by the engine slipping an eccentric seven miles from Charleston and the two incoming trains were delayed three hours. The survivors came in good time and spirits, however, and were in charge of the prompt and popular Captain Joseph White, who acted best all along the route. The following survivors were in the party that arrived last night: J. H. Smith, Walker Smith, G. W. Center, Dr. J. H. Sneed, of the Quitman Guards, of Forsyth, Georgia. ALMOST A MIRACLE!

A REMARKABLE STORY.

A FEW DAYS AGO A GENTLEMAN OF HIGH standing in Atlanta met Dr. J. Bradfield on the street and related the following fa which all ladies are deeply interested:

"For the past eighteen mo. ths my wife has been an invalid, caused from womb trouble, cessation of menses, etc., and I have tried everything I could hear of in the way of medicine and have had several of our best physicians attending her, to one of whom calling him by name). I paid one hundred and sixty-three dollars. Instead of improving or getting any relief, she gradually grew worse, and I had almost given up hope, and I really did not believe she would ever get up from an invalid's bed, but a friend of mine who knew of the case suggested the use of

BRADFIELD'S FEMALE REGULATOR"

and although he stated that he knew of a similar case being cured by it, and indorsed it highly himself. I was so discouraged I did not believe it would do her any good, but, as a last resort, I bought a large bottle of it, and she began taking it, and from the very first a most decided change took place. She began to improve rapidly, her appetite returned, her whole system was built up, and today she is as well and sound as ever in her life, and I am under the long obligations to you and your remedy, for it undoubtedly saved her life," and he added, "I wish every lady in the world so afflicted would try it, as I know it will cure them."

We Claim and Can Prove it Beyond a Doubt.

By the highest and most undoubted testimony!

That this Remedy will cure all womb troubles.

That this Remedy will cure leucorrhœa or whites.

That this Remedy will restore the menstrual functions.

That this Remedy will stop excessive monthly flow.

That this Remedy will relieve painful menstruation.

That this Remedy will build up the system as a tonic.

That it is remedy will cure all female disorders.

"CHANGE OF LIFE."

If taken during this period, so critical, it stands without a rival?

RAILROAD NEWS.

THE HEADLIGHTS RUNNING INTO ATLANTA.

The Georgia Railroad Lease—Rumor of a Movement to Break It—A Problem as to How two Trains Can Pass Each Other on a Single Track—General Railroad Notes.

The Western and Atlantic railroad yesterday forwarded twenty-eight cars of melons. During the week there were one hundred and fifty forwarded over this road.

The extensive additions to the Central railroad freight depot, rendered necessary by the consolidation with it of the Atlanta and West Point depot, make it one of the most commodious freight houses in the south.

Mr. Beau Campbell, formerly of Atlanta, and now connected with the Cincinnati Southern, is the latest candidate mentioned for general passenger agent of the Louisville, New Albany and Chicago.

The report of the committee of fifteen on rules and rules governing transportation to the world's exposition at New Orleans in December, 1884, has been published. A round-trip rate of one fare has been agreed upon between most cities and New Orleans, the tickets to be placed on sale December 1, and withdrawn ten days before the closing of the exposition. The following are the round-trip rates from some of the principal basing points: From Chicago, $20; Des Moines, $24.85; Cincinnati, $18; Council Bluffs, $27.25; Kansas City, $22.75; Louisville, $16.15; Burlington, $20; Peoria, $19.85; St. Louis, $15.

The South Carolina railroad is building an elegant stone bridge to replace the present dilapidated wooden structure across the Savannah river.

A number of southern coal producers held a meeting at Chattanooga on Friday, and called a meeting to be held in that city on the 21st, for the purpose of organizing a coal mutual protective association. The leading railroad managers, and all the coal producers in Kentucky, Tennessee, Alabama and Georgia, will be invited. The object of the association will be the mutual protection of coal dealers, and the equalization of tariffs. The question of adjusting prices will receive attention. Chattanooga is spoken of as the permanent headquarters of the association.

THE GEORGIA ROAD LEASE.

Rumor That a Movement is Under way to Break it.

AUGUSTA, August 9.—[Special.]—THE CONSTITUTION'S readers will recall a rumor in circulation some time ago in regard to breaking the lease of the Georgia railroad. It now transpires that the report has more foundation than was at first supposed, the matter being now actually under advisement. Two prominent lawyers have been consulted and they entertain the opinion that the lease is invalid and can be successfully attacked. In the event of certain contingencies it is probable the attempt will be made presumably upon article four, paragraph four of the state constitution, which reads: "The general assembly of this state shall have no power to authorize any corporation to buy shares or stock in any other corporation in this state, or elsewhere, or to make any contract or agreement whatever with any such corporation, which may have the effect, or be intended to have the effect to defeat or lessen competition in their respective businesses, or to encourage monopoly; and all such contracts and agreements shall be illegal and void."

The defense will urge that the lease was made to individuals, W. M. Wadly and associates, and it is also intimated that if the dull time continues, that the Georgia road will not be able to earn the rental, 12 per cent, and hence the Central will be willing to surrender the lease.

Certain it is, the matter is of the greatest importance to the business interests of the city and the issue will be watched anxiously.

Passing on a Single Track.

The Philadelphia Times has started a spirited discussion tending to show, not how two trains can pass on the same track, but how two trains on a single-tracked railroad can pass each other at a point where there is a single siding, and that siding too short to hold either of the trains. Several correspondents have sent answers to the problem, one of which is as follows: The engine of train No. 1, together with as many cars as the siding will hold, backs in on the siding, leaving the remainder of the cars on the main track. Train No. 2 starts up and runs by the siding up to the point where the remaining cars of train No. 1 are left standing on the main track. The main line is then clear for that portion of train No. 1 which is on the siding. The engineer of train No. 1 pulls his cars out from the siding on to the main track and stops at a convenient distance from train No. 2, to give the latter a chance to operate. Train No. 2 couples on to the remaining cars of train No. 1, and sets those cars in on the siding. Train No. 2 then goes its way, and train No. 1, taking up the remainder of its cars, does likewise. By a repetition of this movement the two trains might pass, although each train had sixty cars and the siding held but six, and the cars would all be in the same consecutive order.

An Important Factor.

A Chattanooga special to the Cincinnati Enquirer says: The Chattanooga Southern, the proposed line of railroad from this city to the Gulf of Mexico via Anniston and Opelika, Ala., would pass through a prosperous and paying region of the country its entire length. From this city to Gadsden is a fine fruit country, in which the smaller and many of the larger varieties are successfully grown. Almost the entire line would pass through a country where cotton is produced and corn and wheat flourish, as well as all kinds of vegetables. Timber abounds in large quantities. In many places large forests of pine stand unbroken that are unexcelled for car, house and bridge building. For more than three hundred miles the road would pass through a mining country whose valuable stores of iron, coal, gold and other minerals only await development, which would be done if the road was built. The route selected would run nearly due west from this city, and at Anniston would connect with the Georgia Pacific, thus giving another competing line to Atlanta on the east, and also to Birmingham, Ala., on the west. It would also connect the Selma, Rome and Dalton road at Anniston. At Opelika it would connect with the system of roads that center there, and as Columbus, Ga., is but a short distance from that place, and is connected by a road, it would be a competing line to that railroad center. The usefulness of this road would not stop with the connections named, for it would be identified with the whole southern system of roads, and would become an important factor in general southern development.

"Ouida" says of one of her heroines, "that when she smiled her smile was soft and sudden, like the smile of one who hears fair tidings in the heart unspoken." Soft and sudden, eh? An Editor's Experience.

After trying numerous remedies for Rheumatism, but without permanent relief, I was advised to use S. S. S., which had given permanent relief to others suffering from rheumatism. After taking half a dozen bottles I found that the disease entirely driven out of my system, and a permanent cure secured. This was over a year ago, and since then, even during our most severe weather, with sudden changes, I have never suffered a return of the old attacks which disabled me from editorial work. Slight attacks have yielded promptly to a few doses of S. S. S., and disappeared within forty-eight hours.

It is very seldom, indeed, that I recommended anything to the public in this manner, but I feel it due to your valuable preparation, that has given me such long desired and much needed relief, to state these facts thus publicly. I am sure that but for your Specific, I should have been laid aside from journalistic work, as the severest attack was in my right arm and hand. As thousands are now suffering in a similar manner, and many of them hesitate for certain reasons to use your preparation, I am constrained to address you this voluntary testimonial for publication in their behalf.

THE CONSTITUTION,

Atlanta, Georgia

ATLANTA, AUGUST 10, 1884.

INDICATIONS at 1 a. m. for the South Atlantic states: partly cloudy weather, local rains, north to east winds, nearly stationary temperature.

THE prevalence of Texas fever among the cattle of the west has paralyzed that branch of industry. It is now announced that pleuro-pneumonia has been discovered among the herds of Pennsylvania and Maryland.

THE marvelous record claimed to have been made by Maud S at Cleveland, a few days since, is now discredited by many. Robert Bonner, an authority on such matters, claims that it was positively not under 2:10.

THE Stars were again victorious over the Atlantas in the last of their three games. This gives three to the credit of each club. The championship will be decided by a series of games between the two at Athletic park in this city, next week.

THE French fleet has taken possession of a Chinese port and coal station, announcing that a withdrawal will only take place on the payment of the heavy indemnity demanded. The Chinese intimate that they will pay no attention to the grandoise talk of the French admiral.

IN the report of Consul General Mason, regarding the appearance of cholera in Marseilles, he makes a strong argument to show that the causes of the plague are local. He also draws attention to the fact that notwithstanding the advance in medical science, there is no diminution in the proportion of deaths to cases.

HON. H. H. CARLTON was yesterday nominated at Monroe for the state senatorship from the twenty-seventh district. Dr. Carlton is well known in the state, having done good service in the lower house of the legislature, where during his term he ranked as one of its foremost members. His friends will urge his name for the presidency of the senate.

THE movement of the coal men, in organizing a pool in Chattanooga, is not likely to attract attention while the August sun sends down its rays upon sweltering humanity; but when such a night comes as called forth the charity of Atlanta last winter, the regulation of the price of coal will become a fireside topic. While business should have a fair profit, the people are entitled to the benefit of business competition instead of the exactions of successful combination.

REPORTS from the growing crops from all parts of the country show them to be in a most promising condition, and the prospect of a bountiful harvest, with a consequent fall and winter of plenty, is bright. It has been many years since there has been such general fullness of the crops of the different products in all sections. The corn and wheat of the west is particularly advanced this year, the tobacco of the east and south is in a better condition than for years, and the cotton of the south is up to its usual yield. The effects of the last threatened panic will thus be more than counteracted.

BUTLER AND CHANDLER.

Those who have supposed that there is any mystery in the attitude of Butler should lose no time in wrapping such a supposition in camphorated paper and laying it away among the relics. As it is impossible for a bass-drum to conceal its identity when its resonant ends are struck, so it is impossible for the resonant Butler to long conceal his purposes—especially at this season when he is beginning to show his age and feebleness of person. He has accomplished many serious things recently. He has written to Editor Dana on the beautiful and entrancing subject of poetry; he has smiled in a slobbery way whenever he thought a workingman was looking in his direction; and he has performed various capers becoming to the glorious profession of demagogy which he follows.

His latest performance is one that ought to commend him to the favorable attention of greenbackers and whackers, and working men and smirking men. To put the matter briefly, but copiously, Butler, the great candidate of the oppressed and suppressed—the great savior and sustainer of the laboring men—has formed an alliance with little Billy Chandler for the benefit of that great and good man, the Hon. James G. Blaine, who is the victim of his own handwriting. The noble-minded Butler, reading in Editor Dana's esteemed paper of the great advantage the Philistines were taking of the great and good Blaine, concluded to come to his rescue.

An opportunity offered and he joined the navy at Portland, in the state of Maine, becoming a member of the mud-tub that carries Billy Chandler's flag around from post to pillar when the weather is warm. It is probable that little Billy had planned the meeting, for notwithstanding his whiffet-like appearance, he is a much smarter man than Butler, and he knows how to manage any man who has flesh-flaps over his eyes. Little Billy planned the meeting, and Butler walked into the trap with his eyes open. The result of the conference is an alliance of the greenback and anti-monopolists candidate with the elements that support Blaine, and hereafter they will be found in sympathetic communion.

The pretence was that Butler had been invited to deliver a sort of sky-scraping eulogy on the system of north-pole hunting that has been devised for the murder of the most prominent young men in the army and navy. It is well known, of course, that Butler cares nothing for the murder of the bright young men of the army and navy who go on a fool's errand towards the north pole, but, in the face of this fact, he made a harangue to the effect that the whole country is overwhelmed with gratitude to little Billy Chandler and other statesmen because the United States has planted an imaginary calico flag on a suppositious point farther north than the British bunting has ever been planted.

All this means that Butler and Chandler have united forces, and with the aid of Editor Dana and such outside help as they may be able to obtain, will proceed to create a tremendous disturbance in favor of Mr. Jay Gould's great anti-monopolist candidate, the Hon. J. G. Blaine. It will thus be seen that the campaign is not as complicated as it has been. True, we have known what to expect from Demagogue Butler, but no one knew where to expect it. Since he has run his head through the Bill Chandler collar, everything is clear. Such being the case, let the campaign proceed.

A SOUTHERN RACING CIRCUIT.

The National Jockey club of Washington and the members of other organizations are maturing a project for the establishment of a grand chain of southern racing meetings extending through Virginia, South Carolina and Georgia. One of the main objects is to winter the runners after the close of the racing season in the middle states.

The programme suggested is that after the races close at Washington on October 24th, the stables shall go to Richmond, where a meeting will be held from October 28th to 31st inclusive. Subsequent meetings will be held in Greenville, S. C., Charleston, S. C., Augusta, Atlanta, Macon and Savannah, and a connection will also be made with the Louisiana and Alabama meetings. The matter finds favorable consideration among leading horse men, and The Turf, Field and Farm says that the details will soon be arranged and given to the public.

THE DAIRY INDUSTRY.

The devotion of southern farmers to the single specialty of cotton has caused many other branches of industry to be sadly neglected. We have seen the agriculturists of other sections become independent and prosperous, by paying attention to small grains, grasses, truck farming, fruit growing, stock raising, and dairy farming. We have seen all this, and yet how few of our farmers have profited by the lesson.

Here in the south we have all the desired natural conditions for successful grass growing, stock raising and dairy farming. The richest and most abundant grasses of the country are to be found in this section. The north can boast of no native grasses approaching those of the south in quantity and nutritive properties. As to horses and cattle, it is conceded that they can be raised here at less expense and in as good form as anywhere.

Speaking of this important subject, the New Orleans Times-Democrat predicts that the dairy and cattle exhibits at the coming world's fair will do much to win the southern people over to the policy of diversified farming. It is to be hoped so. It is time for an agricultural revolution. We have wasted countless thousands in raising worthless stock, and we are still largely dependent upon the north for our butter, grain, etc. When we once decide that southern lands are fit for something else beside cotton, and then go to work in earnest to multiply and diversify our products and industries, independence and wealth will be the certain reward of our intelligent and industrious farmers.

BUTLER, having carried to Billy Chandler, may now be considered an honorary member of the navy.

MR. CLEVELAND and Mr. Tilden have met and consulted. When Ohio goes democratic in October the Blaine organs will raise a great howl and say that the sage of Cipher Alley had a great hand in it. Alas! such is life in the backwoods of America.

MORMONISM is polygamy and polygamy is Mormonism. Like heat and motion, they can not exist apart.

THE reports of General Grant's mental and physical break-down must have been greatly exaggerated. It is now announced that he has entered into a contract to write for The Century magazine twenty articles on the principal battles of the war, for which he is receive $10,000, or $1,000 per article. The general's friends do not expect him to make any very brilliant additions to our war literature, but they feel confident that his articles will be interesting reading, and in the hands of the Macaulay of the future they may prove to be valuable material. If General Grant will hold aloof from swindling bankers and speculators and devote himself to legitimate enterprises, he will receive substantial encouragement. His engagement with The Century is a good beginning.

REED, of Maine, who uses his nose as a speaking tube, is to be beaten this year. Reed's fame is based on the fact that he is able to blow sweet liberty through his nose.

BEN BUTLER is cheek by jowl with Editor Dana and likewise with little Billy Chandler. In other words Bully Ben is cosmopolitan in his instincts.

THE prince of Wales is said to be growing uglier and more dissipated looking every day. With the masses the prince is very popular. He is on the most cordial terms with such liberal leaders as Gladstone, Bright and Labouchere, and it is believed that he is in favor of legislation which will give greater political and social freedom to the common people. The vices of his royal highness are too well known as to require enumeration. With all the temptations of the world, the flesh and the devil presented to him in their most attractive shape, he has yielded as ninety-nine out of a hundred would have done under the same circumstances. With all his faults he is a better man than many of the English nobles, "the spawn of Flanders," as Mr. Bright calls them, men who have "entered the temple of honor through the sepulchres of their ancestors."

IN a speech before the Chicago convention Ben Butler jeeringly asserted that George Washington's education was so defective that he never learned to spell correctly, and in his will he wrote "cloathes" instead of "clothes." This queer spelling amounts to nothing. Washington was a close reader of the Bible and the Prayer-Book, and in many of the Bibles and other books circulated in his day "cloathes" was the accepted spelling. The Buffalo Courier pertinently remarks that Butler's epistolary style will never suffer deterioration from a too close study of the holy Scriptures.

JAY GOULD and all the worst monopolists in the country are violent Blaine men. And yet there are so-called laboring men at the north who have been bribed to hurrah for Blaine. They call themselves laboring men because they labor so much with their jaws.

IF the north pole is found we trust it will be divided between Bully Bottom Butler and Editor Dana.

FOR many years the local traffic on the Mexican railroads will be very small. The traveler on any line of road will see for immense distances nothing but flat plains, without inhabitants, crops or even trees. Again, there are vast stretches of territory, where the only vegetation to be seen is the cactus or maguey plant, the principal use of which is to produce the national drink, pulque. It cannot be expected that the transportation of pulque will be a source of much revenue to the railroads, as the stuff spoils in twenty-four hours. Several Boston men have formed a company for the purpose of preparing pulque so that it will keep, and then transporting it to the east. The experiment will result in failure. Pulque is intoxicating, but drinking Americans are not likely to adopt it as a substitute for either beer or whisky. Of course the country has some natural products that will be carried by the railroads, but the freight and passenger traffic will not make the railroads self-supporting for many years to come. The spectacle of a bankrupt government borrowing money to expend in enormous subsidies to railroads built and controlled by foreigners is, to say the least, peculiar, and the wisdom of such a policy may well be doubted.

GENERAL BEN BUTLER has decided to make a personal canvass in Massachusetts, Maine, Michigan, Illinois, Ohio and Pennsylvania. As the general is simply after fun instead of glory, it goes without saying that he will have a rattling good time.

CAMPAIGNS of scandal may be expected until liars learn to dread the vengeance of their victims or the penal terrors of the law. In the days when the handy shotgun was one of the factors of American civilization, it was a dangerous thing to assail a man's private character without good cause.

IN San Francisco supervisors are appointed whose duty it is to watch the dog pound and release such vagrant canines as may be deemed worthy of life and liberty. Out of 580 dogs captured in July 203 were released by the supervisors or by the mayor's order. The rule is to give every healthy, good looking, well behaved dog a fair chance.

WE are a great country. Some of our lunatics have carried the American buzz-fuzz seven inches nearer the north pole than the blip-eyed British.

AT the north they have striped snakes that swallow their young. In Georgia we have young snakes that swallow their stripes.

RESPECTABLE clergymen all over the country are denouncing the republican preacher Ball, who, in the joy of the Blaine campaigners, invented the sensational scandals against Governor Cleveland. When such men as Preacher Ball are depended on to help along the cause of a man whose integrity is crippled it is about time for the republican party to disband.

MR. SCHURZ'S great arraignment of Mr. Blaine will be promptly and crushingly answered by the republican organs. They will announce that Mr. Schurz is a free-trader. That is the way they defend the republican candidate from his own letters and confessions.

THE New York Commercial Advertiser has already replied to Mr. Schurz's speech. It says that he sounded the keynote of the Hayes campaign. This is why Blaine is a good man.

MR. HENDRICKS is in the east in the attitude of a peace maker. We trust the effete wranglers of the east will pay attention to this western statesman. He knows when to fight and he knows when to smoke the calumet of peace.

LET the democrats of New York bury the hatchet, even if they have to bury it beneath John Kelly's coat tails.

TO-DAY Mr. Arthur is far happier than Mr. Blaine. Mr. Arthur can fish in peace.

Her Backer.

"I see your daughter, Melviny, has opened a cigar and tobacco store," remarked a mercantile agency man, to Mr. Hipstart.

"Yes," answered the old man, "she wanted to earn something, so I thought that the best business for her.

"I would like to get her rating; I guess she'll be good for her contracts."

"Oh, yes," answered Hipstart, "perfectly good; the fact is, I intend to backer."

And the guileless old man yet breathes for a wonder.

POLITICAL NOTES.

ST. LOUIS REPUBLICAN: Mr. Beecher's final determination to support Gov. Cleveland has no other special importance than that, as the conclusion to do so is reached after a very careful inquiry into reports as to the private life of the democratic candidate, it is an indication that the more that is known of his history, public and private, the stronger he will be with the people. Mr. Cleveland's candidacy has certainly grown in favor from the day of his nomination.

CHICAGO HERALD: At first thought it would appear that General Butler's candidacy would be fatal to Cleveland, but it may help him. It may give New York and Connecticut to Blaine, but if it should result in giving Ohio, Indiana, Michigan, Illinois, Wisconsin and Iowa to Cleveland, as it might easily do if vigorously pushed, the loss of New York would be very far from disastrous to the democratic nominee. It may, however, be of little consequence at the ballot box. There are many elements of uncertainty about it which only an inspection of the returns can remove.

BUFFALO COURIER: A citizen of Buffalo who has just returned from a trip through the western states reports that Cleveland is wonderfully popular in republican strongholds such as Kansas, Iowa and Wisconsin. With good state nominations the best state ought to be carried by the democrats. It is a peculiarity of this canvass that there is hardly a point along the whole line which the republicans can afford to neglect. They will have to be vigilant and active everywhere. It is no longer possible for them to concentrate their resources in a few doubtful states and leave the rest of the political field to the care of itself.

NEW YORK WORLD: Butler is to be used to help Blaine. He has no hope of carrying a single state in the union, but he has hopes of drawing off enough votes from Cleveland in New York to give the state to Blaine. Butler's candidacy will have the effect of complicating matters somewhat, but we do not believe it will affect the general result.

Mr. Butler's reasons for declaring himself the open enemy of the democratic party will no doubt be interesting to some people. The democrats of Massachusetts, who have been favoring him for several years with their support and encouragement, will probably conclude now that they have been nourishing a viper.

CHICAGO NEWS: Francis Murphy, the temperance advocate, has expressed opposition to a prohibition political party. He gives it as his opinion that the temperence cause in Illinois will be injured and its success retarded by the organization of a third party. He claims that the history of the temperance work in Massachusetts and New Hampshire shows that the organization of a third party resulted in repealing the prohibition laws then in force. He declares that every vote for a third party will strengthen the rum power. Every victory that has been achived for temperance, he says, was accomplished without the aid of a third party, and in general he is opposed to making temperance a political question.

PERSONAL INTELLIGENCE.

JOAQUIN MILLER thinks the oldest and best voters should have more than one vote. This would give a man capable of inventing such an idea about three-sixteenths of a vote.

THE old town of Ipswich, Mass., of which Gail Hamilton is a native, will celebrate its 250th anniversary of foundation August 16th, and Miss Gail, who has passed as a magazine, political and historical writer, will appear as a poet on that occasion.

THE quite inconsequental information comes to the surface in Boston that full twelve years ago Miss Susan D. Nickerson, of that town, wrote and published a 295 page novel entitled "The Bread-Winners," under which title barely another novel has been widely and absurdly advertised.

SUNDAY'S New York World published a list of persons in New York who are assessed over $100,000 on real estate. Among the newspaper fraternity James Gordon Bennett leads with three buildings assessed at $1,168,000, not half their value, it is said: Oswald Ottendorfer of the Staats-Zeitung, $2,000; George Jones of the Times, $900,000; and Charles A. Dana of the Sun, $100,000.

THE prince of Wales seems to be obeying his mother's injunction to keep away from the theaters. Miss Ada Rehan, the American actress, has made quite a hit in London, and the papers are paying her all manner of compliments, but the prince has not been near her. It is probably just as well, however. Ada is a clever actress, but her beauty is largely made up of stage paint, and the prince has more of an eye for beauty than artistic acting.

MR. EDISON, the electrician, chatting with a reporter in New York yesterday, said: "I have built a railroad three miles long at Menlo park, on which I ran, at the rate of forty-two miles an hour, my electric motor and carried six or eight freight cars. It is a real, practical thing. I could not go on with it because I had not time. I had too many other things to attend to, especially in connection with electrical lightning. I am going into original experimenting again. I'll get out a new crop of inventions during the next year in the electrical line."

IN GENERAL.

BY the breaking of a glass dish which a waiter in Oregon was carrying in his hand the artery at his wrist was severed and he bled to death.

APPLES are expected to bring from $4 to $6 per barrel in New York this fall. English and Scotch agents are already there buying them up in advance.

PALE faces are no longer fashionable at the watering places. Tan is very popular, but to be in the height of style the wearer must have a few large freckles artistically set in a cluster of mosquito bites.

ORANGE peel is now said to be collected, dried in ovens, and sold for kindling fires. It burns readily and with great fierceness, and is safer than kerosene. Now, cannot some useful invention be found for the treacherous banana peel?

THE fastest bicycle time ever made was a mile run in 2 minutes 31 2-5 seconds. Ten miles have been run in less than 20 minutes, 20 miles in less than an hour, and 100 miles in 6 hours and 38 minutes, which is 3 hours less than the best time ever made by a horse.

IT is not generally known that the system of keeping birthdays is many thousand years old. It is recorded in the fortieth chapter of Genesis, twentieth verse: "And it came to pass the third day, which was Pharaoh's birthday, that he made a feast unto all his servants."

"THERE is a decided belief in New York among all persons who have traveled," says Gath, "that Chicago will pass this city in population. It is said that this year, for the first time, that interior cities have been almost entirely able to carry the crops of the country without sending to New York and getting huge sums of money temporarily for that purpose."

A Just Compliment to Senator Brown.

The following compliment paid to Senator Brown by the democratic convention of Cobb county, on Tuesday last, reflects the popular feeling all over Georgia:

The resolution of the convention says: To the Hon. Joseph E. Brown we give our unqualified indorsement, and hope he may live many years to serve his people in the position he now holds and to which we desire his return.

Husband and Wife.

From the Boston Globe.

"That is a beautiful young woman across the way," said Jones to his wife.

"She is, indeed," the lady assented, "a remarkably pretty woman."

"I wonder if the gentleman whom she just now met is her husband."

"I think he must be," replied Mrs. Jones. "I noticed he didn't lift his hat to her."

The Difference Between Them.

From the Burlington Hawkeye.

"There is this difference between us," said the needy tramp, looking the editor full in the eye: "You fill a long-felt want, and I want a long-felt fill."

The editor wept, and, with many a muffled blow, hewed off a fragment of a wedding cake that had been sent in with the notice and handed it to the wielder. "Fill up on that," he said, "and you will feel it long after a trivial food records have been wiped away from the subtraction table of your memory."

The Gubernatorial Convention.

CONYERS, Ga., August 9.—When is the gubernatorial convention held in your city?

DELEGATE.

The convention will meet in Atlanta on Monday, the 18th of the present month, in the hall of the house of representatives.

THE SELECTED THIRTY-SEVEN.

The Committee to Meet To-morrow Night—What Has Been Done.

To-morrow night the committee of thirty-seven selected at the citizens' meeting Thursday night, will convene in the courthouse and mature a ticket which will be presented to the mass meeting next week for ratification or rejection.

The committee has been working zealously since its creation, but has not accomplished anything yet. As to the mayoralty nothing will be done by the committee beyond discussing the merits of several gentlemen for the position until the committee convenes Monday night, and the same may be said also concerning the alderman at large. The candidates for these two offices will be selected by the entire committee of thirty-seven—subject, of course, to the ratification by the mass meeting. Several prominent gentlemen have been mentioned for both places and only a ballot will tell who the committee will recommend.

The councilmen will be selected, one from each ward, by the ward committees. The first ward committee is composed of Aaron Haas, W. H. Brotherton, W. K. Booth, M. T. Castleberry and H. M. Cranney. These gentlemen have been searching their ward diligently for public sentiment, but have not agreed upon a candidate—or if they have agreed they have not made their choice known. There are two mechanics on the first ward committee, and it is intimated that this ward will claim a mechanic as its councilman. Mr. James A. Gray retires from this ward and his place to be filled.

The second ward committee has not announced the name of the gentleman they will propose. The committee is composed of P. E. Mynatt, A. C. Wyly, W. C. Dodson, John Berkele and Jacob Haas.

D. A. Beattie, Zack Smith, J. E. Waters, T. O. Hall and E. T. Allen are now consulting the third ward residents as to whom they would like to be represented by. Councilman Day retires from this ward.

The fourth ward will want a successor to Councilman Longley, and the committee who will submit a name for the candidacy is composed of J. C. Hendrix, J. M. McGuirk, W. H. Scott, C. C. Answer and A. L. Green. There are a number of aspirants from this ward, but no choice has yet been made.

Mr. Elias Haiman retires in the fifth ward, and a candidate for his chair will be named by W. W. Boyd, A. G. Adams, J. S. Morris, Wm. Wallace and M. R. Berry. The committee has a long list of aspirants from which to select.

The retiring member in the sixth ward is Mr. Tyler Cooper. Mr. Cooper has served but one year, and was one of the first representatives of his ward, as it is the new ward. One year ago two members were elected from that ward. They were Mr. M. Mahoney, elected for two years and Mr. Cooper for one year. The committee who will propose a candidate to succeed Mr. Cooper from the sixth are W. A. Hemphill, W. S. Thomson, P. G. Wylie, J. C. Kimball and B. B. Crew.

These committees will each select the choice of their ward as far as can be ascertained, and then when the entire committee meets Monday night will report their action in conjunction with the committee at large composed of Judge Joan Collins, E. P. Chamberlin, John Flynn, A. M. Reinhardt, J. A. Rankin and L. H. Beck will arrive at the names of candidates for mayor and aldermen. Then at the mass meeting this ticket will be presented.

Since the creation of these committees the gentlemen composing them have circulated extensively in their respective wards, talking to the business man, the professional man, the mechanic and the laborer, in order to ascertain the names of gentlemen who would be acceptable to the people for the different positions.

THE COUNTY DEMOCRATS.

The county democratic executive committee will meet to-morrow to consider the matter of nominating candidates for the legislature. All the members of the committee have not been seen but it is believed that a majority of them favor the holding of a primary election. Mr. Walter R. Brown is chairman of the committee.

SENATORIAL AND CONGRESSIONAL.

It is stated positively that Mr. G. W. Bryan, of Henry county, who was a member of the constitutional convention of 1877 will enter the race in this district against Colonel Hammond. He will run as an independent.

A prominent Jonesboro man passed through the city yesterday on his way home from Cobb county. He said to a friend that the Cobb county delegation would be solid for Clayton county man for state senator. Is there to be another 6 by 6 struggle?

PEABODY INSTITUTE AT NORCROSS.

An Interesting Occasion Among the Teachers—A Surprise for Dr. Orr.

NORCROSS, Ga., August 9.—[Special.]—The Norcross normal institute, maintained by the Peabody fund, was opened on Monday last. The instructors are Messrs. W. H. Baker and W. S. Bogart, of Savannah, and S. C. Caldwell, of Rome. The attendance during the past week has been small, but a smaller than would have been the case did the teachers of the state understand the nature of the advantages so freely offered them. Most excellent normal work has been done in the elementary branches of common school education. A large increase in the number of attendant teachers is expected next week.

An important feature of the institute work during the past week has been the instruction in the school laws of Georgia given by the efficient state superintendent, Dr. Orr. The county school commissioners of that portion of the state near Norcross were invited to meet him, and many did so. In the forenoons Dr. Orr gave instruction in the Georgia school law to the commissioners and to members of the institute class; the afternoons were devoted to the discussion of ways and means of promoting their efficient operation. The interest of these meetings was great and the good that will result from this interchange of views between the commissioners and teachers is incalculable. It is earnestly to be hoped by the friends of popular education that they will meet Dr. Orr in greater numbers at Macon and Dalton.

The institute at Norcross will continue throughout the month of August. Teachers in all parts of the state are earnestly invited to attend, whether their work be in public or private schools. They will find at Norcross cool and invigorating air, pure and sparkling water, cheap board and as good normal instruction as the south can afford.

A pleasant incident occurred on yesterday, which was Dr. Orr's birthday. The instructors in the institute remembered it, and presented to the doctor a handsome pair of gold spectacles.

Meeting of the Georgia Bar Association.

The association will meet at Atlanta on Aug. 13th Wednesday) in the superior court room of the new courthouse in the afternoon. The exact hour will be announced in the papers of that day. It is presumed that the session of the convention which meets on Wednesday will conclude by one or two o'clock, and that members of the convention who are also members of the association will find no difficulty in attending both, without conflict. The superior court room is an ample room for the entertainment of a large audience, well lighted, well ventilated and with good accoustic properties. The public is invited to attend the sessions of the association and this invitation includes the ladies. Quite a number attend the meetings of the American bar association at Saratoga. The session will open on Wednesday afternoon with the address of the president, Colonel L. N. Whittle, of Macon. The annual address of General A. R. Lawton, of Savannah, will be the first thing in order on Thursday morning.

MACON MATTERS.

AN ANONYMOUS LETTER RECEIVED IN THE KUKLUX CASE.

The County Court—A Case of Brandy Peaches—A Stolen Watch Found—The Recorder's Court—Fine Villa Farm—The Grand Encampment at Brunswick—Personal.

MACON, August 9.—[Special.]—Yesterday a new development was thrown on the mysterious kuklux case. The United States authorities received an anonymous letter purporting to have come from one who knew of the case, but was afraid to come forward. It contained information to the effect that Mrs. Durham Collins, one of the witnesses who had testified the day before, was not the one wanted, but that it was Mrs. Fannie Collins, and she knew a great deal of the affair. A messenger was dispatched at once to Twiggs county for her. She came to the court and was sworn the United States expecting to hear some new developments in the case. She surprised them, however, by knowing nothing whatever of the case.

Whether she knew anything or not the fact of the letter being written has a tendency to make the affair the more mysterious.

Bibb County Court.

MACON, Ga., August 9.—[Special.]—In the court to-day, before Judge Holt, the case of Robert McWhorter, the negro hackman, came on, and the prisoner was discharged. In April last Mr. Gabriel Davis caught the negro in his stable stealing oats. He had a warrant served. The negro demanded an indictment and under the law the case was continued to the next term of superior court, which was October, but was called in May term, and bond was given. The case was called to-day by the prisoner's counsel in the county court to determine the legality of it. Counsel W. H. Wyly moved to dismiss the warrant on the grounds above. His motion was sustained, and the negro was discharged.

Brandy Peaches

AND WOMEN CAUSE A TRIAL BEFORE COMMISSIONER HASKINS.

NEW YORK STOCKS.

Stocks as Reported in the New York Stock Exchange.

NEW YORK, August 9.—The stock market opened strong and higher this morning with Pacific Mail as the feature, that stock selling up 1¼ per cent. Soon after the first call bears raided Wabash and Lake Shore, forcing prices down ½ to 2 per cent. The weakness was of short duration, however, and before 11 a. m. speculation became buoyant. There was a brisk demand in the room crowd and leading shares commanded a premium for use. In the afternoon the market became weak on unfavorable reports concerning New York Central. The decline in prices from the highest point of the day was ½ to 2⅞ per cent. Vanderbilts being the most conspicuous. In the final dealings there was a rally of ¼ to ½ per cent in some cases and the market left off steadier. Compared with last night's closing prices were ¼ to 2 per cent lower, except for Central Pacific, Reading and Texas Pacific, which were ¼ per cent higher. Sales 237,000 shares.

Exchange 482¾. Money 1. Sub-treasury balances: Coin $122,856,000; currency $14,258,000. Governments firm; 4s 120; 4s 100¼. State bonds steady.

THE CHICAGO MARKET.

Features of the Speculative Movements in Grain and Produce.

By telegraph to The Constitution.

CHICAGO, August 9—The markets were full of weakness again to-day, with the exception of provisions, which remained firm. Cash wheat touched 78¼c—very close to the lowest price at which spring wheat has ever been known to sell in this market. In spite of this low range, the depression was quite marked, and short sellers appeared to be numerous. Toward the close there was a rally of ½c, and the market closed moderately firm. The closing was 78¾c cash and August, 79⅝c September, 81½c October and 82¼c November.

Corn was also very weak, owing to the receipt of favorable crop reports and large receipts. The market closed fully ½c lower for near options The closing prices were 51¼c for August, 51c for September, 49¾c for October and 46½c for November.

Oats felt the downward pressure and prices were graded off sharply. August closed at 25½c and September at 25c.

Pork showed signs of more life, and prices were firm. August closed at $21.60, September at $20.00 and October at $19.70.

Lard ruled easier. The closing prices were $7.30 for August, $7.35 for September and $7.45 for October.

CLANCES AT EVENTS ABOUT THE CITY YESTERDAY.

Gossip of the Gate City Gathered up Here and There—Events Discussed on the Street Corners and About the Curbstones—What the Scribes Find to Write About.

THE camp meeting season is at hand.

THE state democratic convention will convene on Wednesday.

THE Charleston excursionists are expected to get back home to-day.

IT is rumored that Lulu Hurst will come this way again ere long.

THE Pomological society of the county will probably have a meeting next Saturday to name some new varieties of grapes.

INVITATIONS are out to the Kimball house holocaust, which will occur on the roof on Tuesday, the anniversary of the burning of the old hotel.

MISS MARY TATUM, who was so severely injured in the Barry's store gas explosion, has employed Messrs. Hoke and Burton Smith to bring suit against the Gate City Gas Light company for $5,000.

MISS EMMA MOTES, daughter of W. G. Motes, whose death occurred day before yesterday, was buried yesterday morning from her father's residence. A large company of saddened friends accompanied the remains to their last resting place.

BE GIVES THEM TROUBLE.

James Vaughn Makes Things Lively at the Benevolent Home and Elsewhere.

James Vaughn is a young Irishman, who has been in Atlanta only a few months, but during that time he has made himself a terror to the police department, to the city chaingang overseer and guards, and benevolent home.

Soon after Vaughn came to Atlanta he went about the saloons sampling the whisky, and when dark came that night he found himself in the city prison. The next morning when he was arraigned before the recorder the arresting officers testified that Vaughn had been found very drunk, and that he resisted arrest with so much force that it was with great difficulty that he was landed in the city prison. Vaughn was given a few days on the rock pile, and while there refused to work. The next day after completing his term at the rock pile, he was found again and landed in the city prison for the second time. Again he went to the rock pile, and again he refused to work, and one day attempted to whip the overseer at the stockade, but in the fight the bout came out second best, by a large majority. He was then transferred to the city prisoners, working on Magazine street, where he created a sensation one day by divesting himself of all his wearing apparel. He was persistent in his refusal to work until the case was brought to superintendent Cox's attention. The superintendent dually induced Vaughn to pick up a shovel, but instead of helping to load the carts, Vaugn passed his time throwing shovels full of dirt at the cart drivers. Captain Cox then informed Vaughn that he would have to put him standing in a barrel if he did not behave himself. Vaughn said that he could not be made to do anything, and rather than punish him Captain Cox decided to let him have his own way. A few days after this occurrence Vaughn was released, and immediately he secured admission to the Benevolent home; but here his conduct was so bad that Dr. Tucker, the president, was compelled to demand his removal to police headquarters, where he is now making vain efforts to tear down his cell door. Dr. Tucker says that Vaughn is crazy and asserts that he will prefer the charge of lunacy against him. Vaughn declines to tell where he is from, or to converse at all concerning himself.

WHAT WE EAT.

Where it Comes From and What it is Worth.

Yesterday a CONSTITUTION man met at a leading fish dealer's place, Mr. L. H. Sellars, of the Pensacola ice company, a man who knows about as much about fish as any other man in the United States.

"When will Spanish mackerel be here?" asked the reporter.

"It is about time for them to come," was the reply, "but being a deep sea fish they may not take to the shore until the weather gets cooler. Those that are caught now will be caught in deep water."

"It's a fine fish."

"Yes, but the pompano is the choicest fish that swims."

"How are the Pensacola red snappers getting on?" asked the scribe.

"Finely. We ship about three million pounds a year from Pensacola, and that means about five hundred thousand fish. This year the fish are as fine as I ever saw."

"How are red snappers caught?" asked the reporter.

"With hook and line. We have two hooks on a line and bait for the fish. A vessel goes out on the gulf for a week's trip, and has a well into which the salt water enters through holes. As the fish are caught, they are thrown into the well and swim around there until the boat gets back to land. By the way, we are arranging to give Atlanta a better system of getting fish. At present we ship in barrels. We propose to ship in boxes of six hundred to a thousand pounds. These boxes will be on wheels, and will not be turned about as barrels are. The fish will be laid straight and will be much better."

"How long does it take a fish to come to Atlanta from Pensacola?"

"The red snapper that is sold here to-day at three o'clock was alive and kicking yesterday at Pensacola. There is a very rapid transit now arranged."

Mr. Sellars will be here several days.

MARKET MATTERS.

The fish market is very handsomely supplied now. Among the dainties are McNau trout and the famous white fish, the latter from Chicago. They retail at 12½ cents. Skinned cats from the Ohio river and gray pickerel from Lake Erie are also here at the same price. Blue fish and mullet, red snappers, etc., at 10 cents a pound, are plentiful. Fine, large red snappers, headless and dressed, afford excellent steaks, and sell at 10 cents a pound. Fish dealers are showing much enterprise, and housewives would do well to look after them.

In the vegetable market prices are as follows: Cabbage five cents each, sweet potatoes forty cents a peck, roasting ears fifteen cents a dozen, snap beans five cents a gallon, tomatoes fifteen cents a peck, Irish potatoes forty cents a peck, dry onions seventy-five cents a peck, watermelons ten to twenty-five cents each.

Eggs are twelve and a half cents a dozen, and chickens are twenty cents. Butter is from twenty-five to forty cents, according to quality. A good vegetable dinner can be secured now for about nothing.

WEST END ACADEMY.

Professor Roberts Resigns and W. W. Lambdin Elected Principal.

During the past week the board of trustees of West End academy received a letter from Professor M. S. Roberts, principal of the academy, in which he stated that if he should assume the duties of principal of the academy September 1 he might be compelled to resign at a time when such action would work a hardship on the community. Under these circumstances, which he said were beyond his control, he submitted the matter to the board for such action as they thought proper. The board of trustees thereupon had a meeting, received Professor Roberts's resignation and immediately elected by unanimous vote Professor W. W. Lambdin, recently teacher in Professor Means's school in this city.

Professor Lambdin has accepted and will be in the city to-morrow to commence the work of organization of the school which will open September 1. Professor Lambdin is a son of Professor Charles E. Lambdin, whose successful management of Gordon institute at Barnesville, Ga., is a matter of general repute. He is an honor graduate of the university of Georgia. He has taught in Gordon institute and has taught one year with Professor Means in this city. During the past year he has had under his charge about thirty boys—sons of as many of our citizens—all of whom testify to his great excellence as a teacher and disciplinarian.

The new furniture and various articles of school apparatus recently purchased by the board will be here in a few days, and will be put in place. When these are all arranged, there will not be a better fitted school in Atlanta than West End Academy.

A Pleasant Excursion.

The New York, Pennsylvania and Ohio railroad has arranged an exceedingly pleasant excursion from Atlanta to Thousand Islands and Montreal. The trip will include Lake Chautauqua and Niagara, and will be made as comfortable as experience can make it. The advertisement elsewhere speaks for itself, but those who desire additional information can have it imparted to them in solid chunks by Mr. George P. Humphries.

CRIMES AND CRIMINALS.

Some of the Wicked Ways Made Public Yesterday—Stealing Harness.

Yesterday Mr. J. H. Leak, who lives on Marietta street, near the city limits, was approached by a negro man who expressed a desire to dispose of a set of buggy harness. The negro did not have the harness with him and when Mr. Leak asked him where his merchandise was the negro turned about and placing his fingers to his mouth gave a loud whistle. In a half minute another negro approached from around the corner of Marietta street and Mason's and Turner's road, bearing in his arms the harness. This caused Mr. Leak to suspect that the darkies had stolen the harness and, although he had no idea of buying, he began questioning them. The negroes offered the harness for less than one-fifth of their value, and when asked where they got them, told different stories. Finally Mr. Leak openly charged them with having stolen the harness, but as soon as the charge had been made the two negroes turned and fled. Mr. Leak started after them and as soon as the negroes ascertained that they were being followed they dropped the harness and doubled their exertions to escape. Mr. Leak followed until he could run no more, and then turning back picked up the harness and carried them to his home. Mounted Officer Green was notified of the affair, but so far the negroes have not been arrested.

SEARCY SAYS HE SHOT HIM.

Yesterday Searcy, the negro man who lives on Windsor street near Jones street, visited police headquarters and stated positively that one of the shots which he fired at the thief who robbed his residence Friday night had taken effect. He says that he visited the place early yesterday morning and found blood in the street. So far no mysterious wounding has been reported by any physician and the probabilities are that Searcy's ball made a very slight wound if any at all.

MYSTERIOUS DISAPPEARANCE.

Deputy Sheriff Green is now looking for a mule and wagon, which belongs to a friend of his who resides out of the city. Yesterday the owner of the mule and wagon came to Atlanta, and drew upon Alabama street, where he left the turn out with a negro boy about sixteen years of age. After an absence from his wagon of an hour or two the gentleman returned to the place where he had left it, but it was gone. The owner made a thorough search for his mule and wagon, and then reported the loss to Deputy Sheriff Green, who left a description of the turnout at police headquarters last night. There were two chairs and an overcoat in the wagon when the owner left it.

SOME OTHER OFFENSES.

Sallie Green and Fannie Cain, two negro women, were yesterday arrested by Patrolmen Taylor and Abbott. A few days ago some blankets were stolen from a lady on Washington street, and as the stolen articles were found in possession of the two women they were arrested. The charge of larceny was preferred against both women.

Henry Pusifer was given a cell yesterday by Patrolman Looney. The prisoner is charged with larceny.

A thief yesterday made a raid upon Dr. Boring, the county physician, and stole a pair of buggy lines and a buggy whip.

Mounted Officer Myers has sent in his resignation as a member of the police force, and will accept a position with Swift, the undertaker.

The board of police commissioners will convene in regular session to-morrow night.

THE GEORGIA REPUBLICANS.

They Meet and Put Out a Ticket of Presidential Electors.

The state central committee of the republican party met yesterday in the circuit courtroom in the custom-house. Colonel A. E. Buck, the chairman, called the committee to order. J. H. Devaux was made one of the secretaries, that appointment having been ordered by the last state convention. The other secretary has not been appointed yet. It is customary to have two.

A committee of two from the state-at-large and one from each congressional district was appointed by the chairman to nominate to the central committee a campaign committee, an executive committee and a ticket of electors for president and vice-president. The committee appointed was follows:

From the state at large—J. E. Bryant and W. A. Pledger.
First district—L. M. Pleasants.
Second district—Not represented.
Third district—Wm. Black.
Fourth district—W. A. Johnson.
Fifth district—H. A. Rucker.
Sixth district—W. W. Brown.
Seventh district—J. A. Crawford.
Eighth district—Harrison Harris.
Ninth district—W. T. B. Wilson.
Tenth district—R. R. Wright.

The campaign committee selected by this committee on nominations was as follows: Jonathan Norcross, Andrew Clark, Dr. C. W. Wilson, General J. R. Lewis, Major W. H. Smyth, Colonel Volney Spalding, William Doty, W. J. Gaines, C. O. Fisher, E. A. Johnson and R. J. Henry.

None of these committeemen hold federal office.

Twenty-eight persons were named as an executive committee and will have general charge of the campaign.

The nominations made were ratified by the central committee, and the executive committee organized with Colonel A. E. Buck as chairman and O. C. Fuller and W. D. Moore as secretaries.

The executive committee is composed of prominent republicans from all parts of the state. It was decided that nine members of the executive committee should constitute a quorum, and the chairman was instructed to appoint a sub-committee of nine, who should manage the campaign when the executive committee is not in session.

The following persons were nominated and selected as presidential electors:

From the state at large—Jonathan Norcross and James Atkins.
First district—Henry Blunn, of Savannah.
Second district—Charles Wesolowsky, of Albany.
Third district—Beverly C. Mitchell, of Americus.
Fourth district—Harrison J. Sargent, of Newnan.
Fifth district—George S. Thomas, of Atlanta.
Sixth district—Owen C. Sharmon, of Upson county.
Seventh district—C. D. Forsyth, of Rome.
Eighth district—W. F. Bowers, of Bowersville, Hart county.
Ninth district—John M. Allred, of Pickens county.
Tenth district—J. T. Dening, of Augusta.

All these electors are white men, and it is said that the colored members of the committee made the suggestion that there be no colored men put on the electoral ticket.

It was resolved to run candidates for congress in each congressional district, but no names were mentioned as probable candidates. The matter of nominating statehouse officers was left with the executive committee.

Late in the afternoon the state central committee adjourned, after having had a pleasant and harmonious session.

MACEDONIA CHURCH MUDDLE.

The Sisters Make a Grand Charge on the Brothers—Help Wanted.

The Macedonia church muddle is growing more perplexing every day. Yesterday about a dozen female members of the church went in a body to Thurman's brick yard, where a number of the old members of the church were working, and declared open war. The women greatly outnumbered the men, and by abusing them attempted to bring on a difficulty, which was avoided only by telephoning police headquarters. When the women ascertained that police aid had been asked, they quickly and quietly skipped out. The men declare that Jones started a preach in the church again, while the women say with equal firmness that he shall. The quarrel has caused the separation of more than one family, and is not yet half over. Jones, the preacher who was the cause of the trouble, resents that he is in the right and that the request for his resignation did not come from members of the church who had any voice in the church government. He also claims that the second meeting on Thursday night indorsed his course and that he will preach from that pulpit to-day. Yesterday some of the members who adhere with Jones expressed a strong belief that some one would attempt to turn the church before Sunday morning, but this idea was considered absurd by the conservative members. The guarding may reach an end this morning when the hour for services once sround.

Go to Miller's for Baby Carriages.

Dr. L. Brooker, Williston, S. C., says: "I have sold and prescribed Norman's Neutralizing Cordial for various stomach disorders, and the result in every case has been most satisfactory. I have witnessed its happy effects in one specific feature of nausea, known as "Morning Sickness," to which females are subject during pregnancy, and I would advise its use in such cases, as a sovereign remedy."

An excursion of about 500 passed through Lula at 11 a.m. for Tallulah.

Mr. Frank A. Small, editor of the Sunday Record, Atlanta, Ga., says: "I do not believe, as a general thing, in speaking personally of a patent medicine, but I have tried, in three instances, the efforts of Norman's Neutralizing Cordial in cases of cramps and other stomach disorders, and I can honestly and heartily vouch for it as being a sure, speedy and safe cure for such troubles."

AT NEW ORLEANS.

Atlanta will Not Have a Special Building at New Orleans.

In a letter to Major D. C. Bacon, the state's commissioner to the New Orleans exposition, Major Barna, the Atlanta commissioner, says he has given up all hope of raising the money for the special building for Atlanta, and proposes to make the city's collective display in the state's department or main building. Commissioner Barna failed to raise the requisite enthusiasm, and consequently the necessary funds did not forthcome. Of late he has found much indifference on the subject.

In speaking to a Savannah Times reporter Major Bacon said:

"I have just received a letter from Major T. M. Barna, of Atlanta, who has for the past six months been at the head in getting up the Atlanta display, in which he says that after consultation with several of the most prominent Atlanta business men, he has about decided to place Atlanta in the general state display. THE CONSTITUTION will, in all probability, give this arrangement all the support of which it is capable and you know the amount of energy and fire that Henry W. Grady can throw into any of his undertakings. He never does things by halves. I have also received a communication from Governor McDaniel stating that he has been advised by the director-general of the exposition that his draft in favor of the state commissioner for $1,333.33 will be paid on presentation. This, you know, is the first installment of the $5,000 which they propose to give each state making a display, and is taken from the $1,000,000 donated by the government.

A rough sketch of the proposed plan for the state display is on exhibition at the department of agriculture. The space will be fifty by one hundred feet. A reception room will be arranged in the center and show cases will be arranged around the railing with a high glass case at each corner. At one corner will be a pyramid of the woods found in the state, the forestry of Georgia. At another corner will be a pyramid representing the agricultural products of the state. A third will be a pyramid of mineral specimens and a fourth will be a pyramid representing the naval stores. The whole thing will be tastefully arranged and built of Georgia curly pine and cypress. Pendants and various other products of the decorator's art will add to the attractiveness of the display.

CHANGE OF FIRM.

A New Drug House on Whitehall—What They Propose to Do.

The drug house of Haile & Mower, 98 Whitehall changed hands on the 1st of August, Messrs. J. D. Summers & Co. succeeding to the old business.

Mr. J. D. Summers, who will manage the new business, has been in Atlanta about a year, and is well known to the people here. He has been in attendance at one of the medical colleges, and has had a number of years' experience as a pharmacist in a number of years' experience as a pharmacist in Louisville, Ga. Under his direction the house proposes to do a lively business, and will rank second to none in the city as a first-class establishment. They will keep everything in the drug line, including all the best proprietary medicines, toilet goods, etc., and can safely promise the most careful attention in their prescription department.

A night call bell is on the front door, and orders for anything will be attended to promptly at any hour.

The store has been thoroughly overhauled, the goods rearranged, and a brand new stock of fine fancy goods received. Their pharmaceutical preparations are from the best known houses in the country, and absolutely pure drugs are guaranteed.

"You may say," remarked Mr. Summers to a CONSTITUTION man, "that we think we know pretty well the demands of the Atlanta trade, and will exert ourselves to please the public in every particular. Our stock is perfectly fresh, and our aim will be to show up with the strongest."

"You will keep cigars?"

"Yes, as fine a line of all kinds, including tobaccos and cigarettes, as can be found anywhere. Here, try one of our choice Havanas."

Dr. Thomas L. Raines.

A few evenings since the Atlanta medical and surgical union, of which the late Dr. Thomas L. Raines was an officer, passed the following tribute of respect.

IN MEMORIAM.

In the unexpected and untimely death of our brother, we have lost a most valued member and fellow worker; one whose genial disposition made him the most acceptable of companions, and whose large and kindly heart called forth the warmest friendships in those who knew him best. In character we feel that he was one of the manliest of men; always actuated by a keen sense of honor, he was strictly reliable and conscientious in his relations with those who came under his medical care, and we, as his brethren, spontaneously and gladly bear witness to the fact that he was thoroughly unselfish and gentlemanly in all his professional dealings. His career, so suddenly and so sadly closed, gave earnest of a bright and honorable future, and feeling deeply pained at this unwelcome break in our ranks, we take this means, so inadequate and yet sincere, of expressing our appreciation of our late companion, our unfeigned sorrow at his death, and of extending to his now twice stricken mother, to whom he was more than a son, as well as to his sorrowing brothers and sisters, our kindliest sympathy and our tenderest regard.

Vacant lots in every ward to suit all classes of customers. Desirable vacant lots near East Tennessee Railroad shops. On the Boulevard. On Forest avenue. On Decatur street. On Marietta street. On North avenue. On Whitehall street. In West End. Several splendid lots on Peachtree street. In fact in all parts of the city. Now is the time to buy when money is scarce. You can buy on a margin, but it is all nonsense to think or expect any owner of Atlanta property to be frightened and want to give away their property. You can simply make sensible, permanent investments, at fair, reasonable figures, that is all. Property will be much higher in 1885. I have a good conveyance, and plenty of time to show you around. Buyers are invited to call in my office and look around.

A Prominent Farmer Writes.

ROBERT STATION, Jones County, Ga., June 29th, 1884.—By the recommendation of Rev. C. C. Davis I used Dr. Mozley's Lemon Elixir for indigestion, debility and nervous prostration, having been a great sufferer for years and tried all known remedies for those diseases, all of which failed. Five bottles of Lemon Elixir made a new man of me and restored my strength and energy so that I can attend to my farm with all ease and comfort. Refer any one to me. Your friend,

WILLIAM B. EMERSON.

A Card From Cuthbert.

This is to certify that I used Dr. Mozley's Lemon Elixir for neuralgia of the head and eyes with the most marked benefits to my general health. I would gladly have paid $500 for the relief it has given me at a cost of two or three dollars.

John Keely

Again startles the public by the prices which he quotes in our issue of to-day. He keeps his stock up fully to the demands of the trade, and the "Bargains" which he is now offering guarantee the crowding of his immense store up to the last moment of the season. Keely never does things by halves. When he gets his consent to put the knife into prices, he does so with no sparing hand. He says he will not carry over $500 worth of strictly summer goods, and this for such an immense stock as he carries is simply wonderful, and shows the master hand of the man who does the largest trade of any in the south. He is the first in the field with new fall goods too, thus demonstrating his determination to keep fully up with all the demands of the day. He, whilst closing out unreasonably his summer stock is also receiving daily new fall dress goods, and is selling a great many of them. No matter what your wants may be, he is able to supply them, and at prices too which baffle all efforts to undersell him. These are the points of management which keeps his store crowded every day without regard to season. We predict for the captain a rousing trade this coming week. His stock deserves attention, and will gratify all who favor him with an inspection of the same. Read his advertisement in our columns of to-day.

Rheumatism for Twenty Years.

I have been a sufferer with rheumatism for over twenty years, at times with almost intolerable pains. I tried all the watering places used for such diseases, and was treated by many excellent physicians in Georgia and Alabama. The old remedies, potash mixtures, etc., were used with outgiving me relief. I was reduced to almost a skeleton, and could not walk even with the aid of crutches.

I was induced, over a year ago, to use Swift's Specific, and it acted like a charm on my system, and cured me sound and well, having thrown away my crutches, and am to-day in better health than I have been for twenty years. I am satisfied from my experience that S. S. S. will cure the most obstinate cases of rheumatism. It has certainly brought new life to me, and I never can express the gratitude I feel for the benefit I have derived from its use. I cheerfully commend it to suffering humanity everywhere.

Egg Breaking.
The entertainment given by the Gospel Helpers at the First Methodist church on Friday night was a most enjoyable affair. The egg breaking was something new and novel. A month ago the eggs were given out by the lady managers to the members of the society and prizes were offered to the children bringing in the largest amount of money. The result was most satisfactory. All the children did well, bringing in an average of three dollars an egg. But the fortunate ones winning the prizes were Master Ira Fort, Minnie Holcombe, Nettie May Kimball, and Lelia Tuller. The proceeds of the evening amounted to $75, and will go toward in the education of their Chinese girl, Allie Tarin, and other benevolent purposes. Is it not the duty then of the church and the public generally to aid and encourage these little ones in their work and labor of love?

THE NEEDL

DR. TALMAGE'S DISCOU
DORCAS.

He Shall Rise Before Them, and in the All the Glorified in Heaven He Will S Done; Good and Faithful Ser Dorcas is Resurrected!

Sermon by Rev. T. Dewit Talmag
Subject: "The Needle."
Text: "Now there was at Joppa a disciple named Tabitha, which, by tation, is called Dorcas."

There is in Joppe, a seaport town with her needle embroidering her n feebly into the charities of the wor her sitting in the village home. way and around about the building room where she sits are the pale fac poor. She listens to their plaint, their woe, she makes garments for adjusts the manufactured articles to bent form of this invalid woman a cripple that comes crawling on his knees. She gives a coat to this one sandals to that one. With the gifts gles prayers and tears and Christi agement. Then she goes out to ba the street corners by those whom blessed, and all through the street comes "Dorcas is coming." The sic gratefully in her face as she puts her the burning brow, and the lost and t doned start up with hope as they hea the voice as though an angel had them; and as she goes out the lane put out with sin thinks they see a hal about her brow and a trail of glory pathway. That night a half-paid s climbs the hill and reaches home an he lies very well clad and says: "W these clothes come from?" And they "Dorcas has been here." In another woman is trimming a lamp; Dorcas the oil. In another place that had not been at a table for many are gathered now, for Dorcas has bread. But there is a certain pass woman's ministry. They say: " Dorcas? Why, we haven't seen her a day. Where is Dorcas?" And on poor people goes up and knocks at and finds the mystery solved. All th [illegible] of wretchedness the new com [illegible] sick?" No bulletin flashing [illegible] gate, telling the stages of a ki [illegible] is more anxiously awaited for than was of this sick benefactress. Alas f [illegible] is wailing, wailing. DR. TALMAGE'S DISCOURSE ON DORCAS.

He Shall Rise Before Them, and in the Presence of All the Glorified in Heaven He Will Say, "Well Done, Good and Faithful Servant," Dorcas is Resurrected!

Sermon by Rev. T. Dewit Talmage, D. D.

Subject: "The Needle."

Text: "Now there was at Joppa a certain disciple named Tabitha, which, by interpretation, is called Dorcas."

There is in Joppa, a seaport town, a woman with her needle embroidering her name ineffaceably into the charities of the world. I see her sitting in the village home. In the door way and around about the building and in the room where she sits are the pale faces of the poor. She listens to their plaint, she pities their woe, she makes garments for them, she adjusts the manufactured articles to suit the bent form of this invalid woman and to the cripple that comes crawling on his hands and knees. She gives a coat to this one, she gives sandals to that one. With the gifts she mingles prayers and ears and Christian encouragement. Then she goes out to be greeted on the street corners by those whom she has blessed, and all through the street the cries comes "Dorcas is coming." The sick look up gratefully in her face as she puts her hand on the burning brow, and the lost and the abandoned start up with hope as they hear her gentle voice as though an angel had addressed them; and as she goes out the lane eyes half put out with sin think they see a halo of light about her brow and a trail of glory in her pathway. That night a half-paid shipwright climbs the hill and reaches home and sees his little boy well clad and says: "Whose did these clothes come from?" And they tell him "Dorcas has been here." In another place a woman is trimming a lamp; Dorcas brought the oil. In another place a family that had not been at a table for many a week are gathered now, for Dorcas has brought bread. But there is a certain pause in that woman's ministry. They say: "Where is Dorcas? Why, we haven't seen her for many a day. Where is Dorcas?" And one of these poor people goes up and knocks at the door and finds the mystery solved. All through the land of wretchedness the new comes, "Dorcas is sick!" No bulletin flashing from the palace gate, telling the stages of a king's disease is more anxiously awaited for than the news of this sick benefactress. Alas for Joppa! Joppa is wailing, wailing. That voice which has uttered so many cheerful words is hushed; that hand which had made so many garments for the poor is cold and still; that star which had poured light into the midnight of wretchedness is dimmed by the blinding mists that go up from the river of death. In every God-forsaken place in that town; wherever there is a sick child and no balm; wherever there is hunger and no bread; wherever there is guilt and no commiseration; wherever there is a broken heart and no comfort, there are despairing looks and streaming eyes and frantic gesticulations as they cry: "Dorcas is dead!" Then second the apostle Peter. He urges his way through the crowd around the door and stands in the presence of the dead. What expostulation and grief all about him! Here stand some of the poor people who show the garments which this poor woman had made for them. Their grief cannot be appeased. The apostle Peter wants to perform a miracle. He will not do it amidst the excited crowd, so he kindly orders that the whole room be cleared. The door is shut against the populace. One apostle stands now with the dead. Oh, it is a serious moment you know, when you are alone with a lifeless body! The apostle gets down on his knees and prays, and then he comes to the lifeless form of this one all ready for the sepulchre, and in the strength of Him who is the resurrection he exclaims: "Tabitha, arise!" There is a stir in the fountains of life; the heart flutters; the nerves thrill; the cheek flushes; the eyes open; she sits up!

We see in this subject Dorcas, the disciple, Dorcas, the benefactress, Dorcas, the lamented, Dorcas, the resurrected.

If I have not seen that word disciple in the text I would have known this woman was a Christian. Such noble garments became from a heart which is not sanctified and strong by divine grace. Before I show you the needlework of this woman, I want to show you her regenerated heart, the source of a pure life and of all Christian charities. I wish that wives and mothers and daughters and sisters would imitate Dorcas in her discipleship. Before you, O wife! the Sabbath rises, before you creates the threshold of the hospital, before you carry a pack of tracts down the street, before you enter upon the temptations and trials of the day, I charge you in the name of God, and by the turmoil and tumult of the judgment day, O, woman, that you attend to the first, last and greatest duty of your life—the seeking for God and being at peace with Him. Now by the courtesies of society, you are deferred to and He were less than a man who would not oblige you with kind attentions; but when the trumpet shall sound there will be an uproar and a wreck of mountain and continent and no human arm can help you. Amidst the rising of the dead and amidst the boiling of the sea and amidst the live, leaping thunders of the flying heavens there will be no chance for courtesies. But on that day, calm and placid, will be every woman's heart who hath put her trust in Christ; calm, notwithstanding all the tumult as though the fire in the heavens were only the gildings of an autumnal sunset, as though the peal of the trumpet were only the harmony of an orchestra, as though the awful voices of the sky were but a group of friends bursting through a gateway at eventime with laughter and shouting. Dorcas, the disciple! Would to God that every Mary and every Martha would this day sit down at the feet of Jesus!

Further, we see Dorcas, the benefactress. History has told the story of the crown; the epic poet has sung of the sword; the pastoral poet, with his verses full of the redolence of clover tops, and a rustle with the silk of the corn, has sung the praises of the plow. I tell you the praises of the needle. From the fig leaf robe, prepared in the Garden of Eden, to the last stitch taken, the needle has wrought wonders of generosity, kindness and beneficence. It adorned the girdle of the high priest; it fashioned the curtains in the ancient tabernacle; it cushioned the chariots of King Solomon; it provided the robes of Queen Elizabeth and in high places and in low places by the fire of the pioneer's back log, and under the flash of the chandelier, everywhere it has clothed nakedness, it has preached the gospel, it has overcome hosts of penury and want, with the war-cry of "Stitch! Stitch! Stitch!" The operatives have found a livelihood by it, and through it the mansions of the employer have been constructed. Amidst the greatest triumph in all ages and lands I set down the conquests of the needle. I admit its crimes. I admit its cruelties. It has had more martyrs than the fire. It has butchered more souls than the inquisition. It has punctured the eye. It has pierced the side. It has struck the cross into the lungs. It has sent madness into the brain. It has filled the potter's field. It has pitched whole armies of the suffering into crime and wretchedness and woe. But now that I speak of Dorcas and her ministries to the poor, I shall relate only the charities of the needle.

This woman was a representative of all those women who make garments for the destitute, who knit socks for the barefooted, who prepare bandages for the lacerated, who fix up boxes of clothing for western missionaries, who go into the asylums of the suffering and destitute, bearing that gospel which is sight to the blind and hearing for the deaf and which makes the lame man leap like a heart and brings the dead to life, immortal health bounding in their pulses. What a contrast between the practical benevolence of this woman and a great deal of the charity of this day! This woman did not spend her time idly planning how the poor of Joppa were to be relieved; she took her needle and relieved them. She was not like those persons who sympathize with imaginary sorrows and go out in the street and laugh at the boy who has upset his basket of cold victuals, or like that charity which makes a rousing speech on the benevolent platform and goes out to kick the beggar from the step, crying: "Hush your miserable howling!" The sufferers of the world want not so much theory as practice; not so much tears as dollars; not so much kind wishes as loaves of bread; not so much smiles as shoes; not so much "God bless you!" as jackets and frocks. I will put one earnest Christian man, hard-working, against 5,000 mere theorists on the subject of charity. There are a great many who have fine ideas about church architecture who never in their life helped to build a church. There are men who can give you the history of Buddhism and Mohammedanism who never sent a farthing for their evangelization. There are women who talk beautifully about the suffering of the world who never had the courage like Dorcas to take the needle and assault it.

I am glad that there is not a page of the world's history which is not a record of female benevolence. God says to all lands and people, "Come now and hear the widow's mite rattle down into the poor-box." The princess of Conti sold all her jewels that she might help the famine-stricken. Queen Blanche, the wife of Louis VIII., of France, hearing that there were some persons unjustly incarcerated in the prisons, went out amidst the rabble and took a stick and struck the door as a signal that they might all strike it, and down went the prison door and out came the prisoners. Queen Maud, the wife of Henry I., went down amidst the poor and washed their sores and administered to them cordials. Mrs. Retson, at Matagorda, appeared on the battlefield while the missiles of death were flying around and cared for the wounded. But why go so far back? Why go so far away? Is there a man or woman who has forgotten the women of the sanitary and Christian commissions, or the fact that before the smoke had gone up from Gettysburg and South mountain the women of the north met the women of the south on the battlefield, forgetting all their animosities while they bound up the wounded and closed up the eyes of the slain? Have you forgotten Dorcas, the benefactress?

I come now to speak of Dorcas, the lamented. When death struck down that good woman, oh, how much sorrow there was in Joppa. I suppose there were women there with larger fortunes; women perhaps with handsome faces; but there was no grief at their departure like that at the death of Dorcas. There was not more turmoil and upturning in the Mediterranean sea dashing against the wharves of that serport than there were surgings to and fro of grief in Joppa because Dorcas was dead. There are great many who go out of life and are unmissed. There may be a very large funeral; there may be a great many carriages and a plumed hearse; there may be high-sounding eulogies; the bell may toll at the cemetery gate; there may be a very fine marble shaft reared over the resting place; but the whole thing may be a falsehood and a sham. The church of God has lost nothing. The world has lost nothing. It is only a nuisance abated; it is only a grumbler ceasing to find fault; it is only an idler stopped yawning; it is only a dissipated fashionable jostled from his wine-cellar; while on the other hand no useful Christian leaves this world without being missed. The church of God cries out like the prophet: "Howl fir-tree, for the cedar has fallen!" Widowhood comes and shows the garments which the departed had made. Orphans are lifted up to look into the calm face of the sleeping benefactress. Reclaimed vagrancy comes and kisses the cold brow of her who charmed it away from sin and all through the streets of Joppa there is mourning, mourning because Dorcas is dead. I suppose you have read of the fact that when Josephine was carried out to the grave there were a great many men and women of pomp and pride and position that went out after her; but I am most affected by the story of history that on that day there were 10,000 of the poor of France who followed her coffin, weeping and wailing until the air rang again; because, when they lost Josephine they lost their last earthly friend. Oh, who would not rather have such obsequies than all the tears that were ever poured in the lachrymals that have been exhumed from ancient cities? There may be no mass for the dead; there may be no costly sarcophagus; there may be no elaborate mausoleum; but in the damp cellars of the city and through the lonely huts of the mountain glen, there will be mourning, mourning, mourning, because Dorcas is dead. "Blessed are the dead who die in the Lord; they rest from their labors and their works do follow them."

I speak to you of Dorcas, the resurrected. The apostle came to where she was and said, "Arise," and sat up. In what a short compass the great writer put that "she sat up!" Oh, what a time there must have been when the apostle brought her out among her old friends! How the tears of joy must have started! What clapping of hands there must have been! What singing! What laughter. Sound it all through the lane! Shout it down that dark alley! Let all Joppa hear it! Dorcas is resurrected! You and I have seen the same thing many a time; not a dead body resuscitated but the deceased coming up again after death in the good accomplished. If a man labors up to 50 years of age serving God and then dies we are apt to think that his earthly work is done. No! His influence on earth will continue till the world ceases. Services rendered for Christ never stop. Here is a Christian woman, she toils for the upbuilding of a church through many anxieties, through many self-denials with prayers and tears and then she dies. It is 15 years since she went away. Now the spirit of God descends upon that church; hundreds of souls stand up and confess the faith of Christ. Has that Christian who went away 15 years ago nothing to do with these things? I see the flowering out of her noble heart. I hear the echo of her footsteps in all these songs over sins forgiven, in all the prosperity of the church. The good that seemed to be buried has come up again. Dorcas is resurrected.

After awhile all these womanly friends of Christ will put down their needle forever. After making garments for others, some one will make a garment for them; the last robe we ever wear—the robe for the grave. You will have heard the last cry of pain. You will have witnessed the last orphanage. You will have come in worn out from your last round of mercy. I do not know where you will sleep, nor what your epitaph will be; but there will be a lamp burning at that tomb and an angel of God guarding it, and through all the long night no rude foot will disturb the dust. Sleep on, sleep on! Soft bed, pleasant shadows, undisturbed repose! Sleep on!

"Asleep in Jesus! Blessed sleep!
From which none ever wake to weep!"

Then one day there will be a sky-rending and a whirl of wheels and the flash of a pageant; armies marching, chains clanking, banners waving, thunders booming, and that Christian woman will arise from the dust and she will be suddenly surrounded—surrounded by the wanderers of the street whom she reclaimed, surrounded by the wounded souls to whom she administered! Daughter of God, so strangely surrounded, what means this? It means that reward has come, that the victory has been won, that the crown is ready, that the banquet is spread. Shout it through all the crumbling earth! Sing it through all the flying heavens! Dorcas is resurrected!

In 1855, when some of the soldiers came back from the Crimean war to London, the queen of England distributed among them beautiful medals called Crimean medals. Galleries were erected for the two houses of parliament and the royal family to sit in. There was a great audience to witness the distribution of the medals. A colonel who had lost both feet in the battle of Inkermann was pulled in on a wheeled chair; others came in limping on their crutches. Then the queen of England arose before them in the name of her government and uttered words of commendation to the officers and the men, and distributed these medals, inscribed with the four great battle-fields, Alma, Balaklava, Inkermann and Sebastopol. As the queen gave these to the wounded men and the wounded officers, the bands and music struck up the national air, and the people with streaming eyes joined in the song:

"God save our noble queen!
Long live our gracious queen!
God save the queen!"

And then they shouted, "Huzza! Huzza!" Oh, it was a proud day for those returned warriors! But a brighter, better and gladder day will come when Christ shall gather those who have toiled in His service, good soldiers of Jesus Christ. He shall rise before them, and in the presence of all the glorified in heaven, He will say: "Well done, good and faithful servant!" And then He will distribute the medals of eternal victory, not inscribed with works of righteousness which we have done, but with those four battlefields, dear to earth and dear to heaven, Bethlehem! Nazareth! Gethsemane! Calvary!

MONOMANIA.
The above disease of the brain is of more frequent occurrence than is generally supposed, male and female victims being numbered among all classes.
In some cases it might be termed a fanciful chimera of the brain, the mind seeming to be on the lookout for some new idea or delusion, which really has no foundation in fact. It appears to be an intellectual concentration upon one idea, the mind remaining clear upon every other point. The integrity of the intellectual portion of the mind becomes apparently overpowered by the delusion and remaining in a kind of quasi state, until the false idea becomes a positive conviction. Jealousy, ambition, disappointment and any exciting cause creating an unexpected concentration of intellectual forces, are frequent causes of monomania. A man's wife receiving sudden and unexpected information relating to his amours with another woman, which, although without any foundation in fact, is revolved over and over in her excited mind, until jealousy is thoroughly aroused, a species of monomania being the result. Afterwards, it makes no difference what the cause of absenting himself, the wife can then assign only one cause which has taken possession of her brain. These affections have become very annoying and grievous and if not relieved are apt to end in a more abnormal condition of the mind, producing family quarrels, dissentions, accusations, denials, &c., between man and wife, lover and sweetheart. They should all be treated as early as possible, and the most speedy and certain remedy is the use of B. B. B., which produces an immediate transformation through the blood, the effects of which are felt and acknowledged before using one bottle.
The patients are all easily aroused on certain subjects, and although ridiculous in the extreme, cannot be convinced of their error. One party may presume that the whole human family are afflicted with "mineral poison," while yet another may argue that "potash mixtures" are poisoning the blood of the nation, and that Revelations from the Almighty placed him in a special position to offer the only antidote, while all else are frauds. These conditions emanate from those of honest and pure motives, but are powerless to throw off the shackles which bind them. The friends and relatives of all such should urge them to use B. B. B. and be cured, before more serious results occur, leading to insanity. The actual and positive action of B. B. B. is of such nature as to convince any one of the unparalleled power that it has over all blood poisons, scrofulous sores, swellings and taints, kidney and rheumatic affections, catarrh, tetter, chronic ulcers and sores, &c., &c. All these astounding cures are proven by doctors, bankers, preachers, merchants, editors, farmers, and men and women here in Atlanta, where every witness can be seen and talked with. We have a wonderful 32 page book, filled with blood business, which will be mailed free to any one. It is a regular eye-opener. Address

CUTICURA
Miracles of Healing Unparalleled in Medical History.
"I have been afflicted for twenty years with an obstinate skin disease, called by some M. D.'s psoriasis, and others, leprosy, commencing on my scalp, and in spite of all I could, with the help of the most skillful doctors, it slowly but surely extended, until a year ago this winter it covered my entire person in form of dry scales. For the last three years I have been unable to do any labor, and suffering intensely all the time. Every morning there could be nearly a dustpanful of scales taken from the sheet on my bed, some of them half as large as the envelope containing this letter. In the latter part of winter my skin commenced cracking open. I tried every thing, almost, that could be thought of, without any relief. The 12th of June I started West, in hopes I could reach the Hot Springs. I reached Detroit and was so low I thought I should have to go to the hospital, but finally got as far as Lansing, Mich., where I had a sister living. One Dr.—— treated me about two weeks, but did me no good. All thought I had but a short time to live. I earnestly prayed to die. Cracked through the skin all over my back, across my ribs, arms, hands limbs, feet finally swollen, toe-nails came off, finger-nails dead and hard as bone, hair dead, dry and lifeless as old straw. O, my God! how I did suffer.
"My sister had a small part of a box of Cuticura in the house. She wouldn't give up; said, 'We will try Cuticura.' Some was applied on one hand and arm. Eureka! there was relief; stopped the terrible burning sensation from the word go. They immediately got the CUTICURA RESOLVENT CURE, and CUTICURA SOAP. I commenced by taking one tablespoonful of Resolvent three times a day, after meals; had a bath once a day, water about blood heat, used Cuticura Soap freely; applied Cuticura morning and evening. Res ults turned to my home in just six weeks from time I left, and my skin just as smooth as this sheet of paper. "HIRAM E. CARPENTER.

Saved His Life.
A PHYSICIAN'S TESTIMONY.
I was called to see Mr. John Pearson, who was confined to his bed with what appeared to be consumption of the worst form. As all of his family had died of that dread disease (except his half brother), his death was regarded as certain and soon. After exhausting all the remedies, I finally as a last resort, sent for a bottle of Brewer's Lung Restoror and it acted like magic. He continued the use of it for some time and has been fully restored to health. So far as I could discover, he had consumption, and Brewer's Lung Restorer saved his life.

ANOTHER RESCUE FROM DEATH.
In 1881, while sewing on a machine, my wife was taken with a severe pain in her side, which was soon followed by hemorrages from her lungs, severe cough and fever, and could neither eat or sleep, and in a few weeks was reduced to a mere skeleton. Her stomach refused to retain any food, and the physician thought one of her lungs was entirely gone. At a final consultation of two physicians her case was pronounced hopeless. I tried Brewer's Lung Restorer by advice of one of the physicians, and she began to improve after the third dose. She continued the medicine, and is now in excellent health, and is better than she has been in several years. I believe Brewer's Lung Restorer saved her life.

And he shall wear a royal crown
Who gives a lift when men are down."
$10,000 would not purchase from me what Swift's Specific has done for me. I cured me of Rheumatism caused by miasma."
ARCHIE THOMAS, Springfield, Tenn.
Statement of T. L. Massenburg, Macon, Ga.
I have known much of the use of Swift's Specific and have seen many of the worst cases of Blood Taint and Blood Poison cured with it, after having tried all other sorts of treatment; in fact, I have never known it to fail when taken properly. I cite the case of a young man who had been treated by the best physicians for Blood Poison, but all to no purpose; and as the time for his marriage was approaching, he was nearly distracted. He finally took Swift's Specific, and was cured as sound as a new dollar.
Another who had tried everything, and spent four months at the Hot Springs without benefit, was at last cured by this remedy. His case was like raising one from the dead. I could go on and tell you of a hundred cases,

SOCIAL GOSSIP.

THE FEATURES OF THE WEEK CHRONICLED.

Entertaining Our Company--The Movements of Our People Abroad--Marrying and Given in Marriage--Topics of Interest to our Lady Readers--Theatrical Matters, Etc.

Prospective Bliss.

Among the weddings to come off in the near future, one will be on South Pryor street.

Mrs. Grundy asserts that among the very early marriages to come off one will be our Marietta sweet.

Mother Hubbard Dresses.

At home and about the house the "Mother Hubbard" dress does very well for quite young girls. As to grown people wearing these dresses—well ladies appearing in Mother Hubbard dresses on the streets of the moral city of Omaha are arrested.

What Remedy?

"What should a man do when the world fails to recognize his talents and his labors?"

The above question is asked THE CONSTITUTION—not exactly a society problem, and "grin and bear it" is not a very elegant reply. The moral sickness of a man in whose eyes the good opinion of his fellow men is the test of merit, and their applause the principal reward for exertion, is pitiful. Men should be actuated by higher motives.

Spells and Philters.

The curious old superstition about the power of spells, charms and philters over the affections, both to kindle and to quench the liking, has a strong vitality. Two young men of this city, send to a party in New York, who advertised a mysterious, harmless medicine that will sway the lasting sentiment of the heart. Perhaps they imagine that it is some of the same medicine that Old Brabantio accused Othello of using to charm away his daughter.

Lady.

THE CONSTITUTION is frequently asked as to the proper use of the word lady and woman.

It is in bad taste to say "she is a beautiful lady," or a "clever lady." Beautiful woman, clever woman, is better. It is not proper to say "I am traveling with women." It should be "I am traveling with ladies." In short, "woman should" be used when the realities of life and character are treated of. "Lady" should be used to express the outside characteristics and the conditions of cultivated society.

Moonlight Picnic.

On Tuesday evening a party of sixteen ladies and gentlemen of Atlanta, in a large wagon, enjoyed a moonlight ride out to the residence of Mr. Wm. Kuhn's, at Edgewood, where several hours were delightfully spent in conversation. There was also pleasant music by Miss Kuhn and others, and the Edgewood band. During the evening choice refreshments were served. At a late hour the party enjoyed the return ride to the city. All who participated felt under obligations to the young ladies who got up and arranged the party and who so charmingly carried it out.

Answer to Note.

A young lady writes to THE CONSTITUTION, but fails to give her name, saying, "I take pleasure of leap year to say, send me a handsome, educated man—one who can offer me an attractive, comfortable home, and I will be happy and content." She also forgets that the human heart did not follow with contentment and joy in the garden of Eden with all its beautiful productions, its flowers, its fruits, its fountains and running streams, its shady groves, its green lawns and its singing birds? The young lady should bear in mind that Eve would eat the forbidden fruit, and then tempted Adam to his fall.

A Gentleman.

There are many various conceptions of what should be meant by the word "gentleman." But life can deal out beautiful compliments and say kind words, but true courtesy is an emanation of the heart.

Lord Chesterfield declared that a prepossessing exterior is a perpetual letter of recommendation, but pleasing manners win more friends and a more permanent good will. Courseness and indifference to the gratification and interests of others closes the avenues to human hearts, while politeness and a gentle disposition are an open sesame much to be desired.

To See the Sun Rise.

Quite a party of city people, who are up at one of the north Georgia resorts, a few days since went out to a country farm house and remained all night to see the sun rise. Way off in the country where everything was fresh, where the dew drop glistened on the grass and sparkled on the forest leaves, where the morning breeze came fragrant to us in the fields and the foliage of the woods. It was a revelation to the party, also a great pleasure to watch the departure of the night shadows, to hear the voices of the morning feathered and hairy, and to look upon the sun as he came up from behind the eastern hills. It seemed to the party that the gladness grew in intensity, and that a new song burst forth as he came into view. Sunrise, off in a mountain country, is a glorious sight to one fresh from brick houses, and paved thoroughfares, long vistas of streets, with the rumbling of carriages and a moving panorama of sidewalks covered with people.

Moonlight Drive and Picnic.

The young people of Dalton, chaperoned by Mr. and Mrs. H. C. Babcock, spent a most delightful evening at Maddox mill, Tuesday. The party was composed of Dalton's best society: Clara S. Pruden, Miss Lizzie Macaulay; Walter L. Harbon, Miss Sargent, of Atlanta; Sam M. Lowry, Miss Blanche Bowley; Wm. J. Trammell, Miss Beulah Rowley; Ben J. Gudger, Miss Willie Whitfield; Geo L. Richardson, Miss Lucy Holtzclaw; F. T. Reynolds, Miss Lillian Whitman; Hal Russell, Miss Annie Billingsley; Will J. Townley, Miss Grace Pruden; Sam W. Farnsworth, Miss Lily Capper; Ben F. Carter, Miss Jessie Carpenter. A good band was on hand with splendid music. Dancing was indulged in to a late hour. A most sumptuous repast was spread at 9 o'clock, which was did ample justice to by the merry party. The camp fire lit up the scene, and made quite a picturesque picture. The beauty and chivalry of the city was in attendance. The evening was highly enjoyed by all. The drive back to the city, 5 miles by moonlight, was all that could be wished for—in beauty, pleasure and romance.

Opening Ball at Gainesville.

The most delightful dance of the season was the grand opening ball given at the Piedmont Hotel last Tuesday evening. This charming resort with its beautiful lawn, spacious ballroom, and its long moonlit verandahs, is eminently suited to those in the pursuit of pleasure and enjoyment; and when I mention that the opening ball was presided over by the genial and accomplished Mrs. General Longstreet, that it was a pronounced success goes without saying.

The following is a partial list of those who were present: Miss Ida Longstreet with Mr C A Moreno; Miss Mamie Trice with Mr R P Myers; Miss Mamie Sims with Mr John R Redwine; Miss Lelia Whitehead with Mr John Hynds; Miss Genie Whitehead with Mr J M Bell; Miss Annah Howard with Mr F P Jones; Miss Kate Ford with Dr H N Stanley; Miss Katie Moreno with Mr M C Bowden; Miss Minnie Moreno with Mr James Longstreet, Jr; Miss Hattie Ladd with Mr George W Rawlings; Miss Maggie Starke with Mr J J Gaillard; Miss Sallie Trice with Mr C M Parker; Miss Dora Moreno with Mr C A Whitehead; Miss Taylor with Mr J N Dulve. Dancing was continued until the "wee sma' hours," and the evening will long be remembered by those who were present.

Messrs. J. S. Thomas, J. C. Brandman and A. J. Smith, of Atlanta, visited Athens during the week.

There is a young lady in Atlanta, whose hand is as purely white and perfectly shaped, as if cut out of alabaster by the hand of Paldius.

Madame Theo, the French operatic singer, has just become a widow. It is but two months since her rival, Judic, also lost her husband.

Black stockings are more worn than any other color for both ladies and children. They are used with dresses of all colors and for all occasions.

The Athens Banner says "that on the 21st instant, a swell marriage will come off in Athens—An Atlanta young man to a young lady of Athens."

Our People seem to think Jersey cattle the only production of the Channel Island. The truth is, the crowning glory of Jersey is the beauty of her women.

The dogs in the Eastern part of Atlanta, are not of the breed to which Isaiah compared the blind watchman of Israel, when he said "they are dumb, they cannot bark."

Mr. George Bancroft, the historian, is a great lover of roses. At a recent dinner to some of his friends at Newport the tables were decorated with roses of every variety.

A strange custom prevails in Mexico. Little boys who obey their teacher in school are rewarded by permission to smoke while they study. In Atlanta, they smoke in street cars and everywhere, except in church.

Julia, the celebrated comic French actress, will come to this country. She is to give 220 performances at a salary of $1,600 each and all expenses paid. About 500 workingmen's day's wages for one evening's.

Hosiery for the fall comes in gayer designs than ever, old gold embroidery, upon black, navy blue and blackground work and a fanciful design shown upon one pair.

Cartersville American: The visiting young ladies, notably Miss Davidson, of Selma; Miss Pattillo, of Atlanta; Miss Newton, of Athens; and Miss Caldwell, of Tennessee, contributed largely to the success of the Presbyterian festival last Thursday evening.

Selma Times: "Mrs. Plowman, now of Atlanta, was formerly of Talladega in our own state. She has made a wide reputation with her immitable sketches under the nom de plume of "Betsy Hamilton," and reads her own humorous productions in an inimitable way."

Shelley once said, upon viewing the grave of Keats, at Rome, that one would be half in love with death, if he knew he would be buried at such a lovely spot. Granting that be true of Shelly, the keepers of Oakland Cemetery should bear in mind that a pretty and well kept spot, drew out the remark.

Mrs. Grundy says of a certain young lady of this city, that after entreating her father with tears in her eyes, his consent was given to her engagement with a most worthy young man of a neighboring city. If the sentimental and romantic girl hands laid down his arms at the sight of a woman's tears, what will they not accomplish in the eyes of a pretty girl, with an Atlanta man?

On Thursday a well-favored country girl who, with her family, had been selling watermelons for the season, deliberately drew off her shoes and stockings and bathed her feet at the pump on Alabama street. In justice to her it must be said the feet she displayed were as well shaped as were those which the charming Dorothea exhibited in a somewhat similar method to the enraptured gaze of Don Quixote.

At the funeral of Harmon S. Cutting, Governor Cleveland said: "I wish that the word 'gentleman' always conveyed to the mind, as it ought, a modest and unostentatious regard for the wants and comforts of others; an avoidance of all that which irritates and vexes our fellows; a sympathy and kindness which soothe and, if it might be, heals the wounds of the sorrowing and the afflicted; and a keen and lively sense of every duty we owe to those about us."

Resort Items.

Full dress germans twice a week at Morehead City.

Mr. W. P. Northern, of Atlanta, is a guest at Morehead City.

Mrs. McKimmon, nee Miss Lelia Hay, is at Morehead City.

Hon. Henry G. Turner and family are at Gower springs for the summer.

Major W. D. Luckie, of Atlanta, has gone to Tate springs for a few weeks.

The new asphalt at Tallulah falls is balmy, bracing, superb for health.

Richmond and Norfolk empty themselves at Old Point Comfort every Monday.

There is quite a large and pleasant number of guests at Alabama White Sulphur Springs.

A grand tournament is to come off at the Virginia Greenbrier White Sulphur springs.

From Cape May the report comes that the present season there is the worst on record.

To see the largest number of pretty southern girls is the Virginia White Sulphur springs.

There's a young lady at Long Branch from St. Louis who is said to have 163 complete toilettes.

Of the most elegantly dressed women at Saratoga, it is said they do not belong to the best society.

The cry that comes up from all the watering places this summer is the scarcity of young men.

Miss McCoy, of Baltimore, is the belle and beauty at Old Point Comfort. She has exquisite Worth toilets.

At a recent theatrical performance at Morehead City, Mrs. Carlton Hillyer, of Augusta, was stage manager.

Dr. Talmage, wife and daughters, are at Rawley springs, Va. His daughters are aged 18 and 20, respectively.

Major T. P. Smith, Miss Smith, Colonel and Mrs. Hooker, and Miss Ella Powell, of Atlanta, are at Morehead City.

Messrs. George Collier and C. F. Hoke, of Atlanta, were registered at the New Brighton hotel, during the past week.

Mrs. W. A. Hemphill, of Atlanta, after a two weeks' visit to Athens and a week in Gainesville, is now at Tallulah falls.

Mrs. C. McMullen and her charming daughter, Mrs. Harris, of Quitman, are spending the summer in Gainesville.

Among the belles at Long Branch is Miss Finley, daughter of Mrs. Louis millionaire. She dresses the racquet divinely.

It is estimated that 100,000 people visited Coney Island last Sunday. The estimate for Rockaway Beach was 30,000 visitors.

The veteran actor and dealer in "double ease," John D. Owens, is spending the summer at Greenbrier White Sulphur springs.

Mrs. Millen, of the Boston excursion party to the resorts of Virginia, is 78 years old, yet enjoys the trip as much as any of the party.

There is a complaint of the cooking at some of the southern resorts. The gastronomic tendencies of the epicure are not satisfied.

The Hotel Brunswick, at Smithville, off the coast of North Carolina, has done so well this season, that it will be enlarged and improved.

The Grand hotel at Greenbrier, Va., springs, is 2,300 feet above the level of the sea, and the mountains around rise nearly 2,000 feet more.

Long Branch is full of gamblers. On the streets, in the saloons, on the hotel porches, you are constantly hearing of bets and speculation.

A venerable old negro is the head waiter at the Grand hotel, White sulphur springs, Va. He has held the position for forty consecutive years.

Mrs. Jos. B. Cumming, of Augusta, has become a favorite at Morehead City because of her easy manners, cultivation and exquisite refinement.

Mrs. Anandibas Joshee, a Brahma lady, who speaks seven languages, dresses in gold tissue and studies medicine, is a great attraction at Saratoga.

New Holland is a nice place to rest; the water is refreshing, the clerks affable, the servants polite and the visitors pleasant to converse with.

The Blue Ridge springs, Va., are quite gay. Monday night a charming ten pin and champagne party was given by Mr. C. E. Talmas, of Charleston, S. C.

Quite a number of Atlanta people are absent just now at various resorts:—

"We've gone to the sounding sea,
Some to the mountains high."

The Blue Ridge springs, Virginia, has among its visitors a larger number of young men than young ladies. It is the only resort at which this state of things exist.

A larger number of Atlanta people are in the country than usual this season. They are at country farms. Hear:—

"The plowman's near at hand
Whistling o'er the furrowed land,
And the milkmaid singeth blithe."

What do they do at Oconee White Sulphur springs? Read what Calvertly says:

"Some sit in two's dos frequently) in threes,
With their fancy work or book on their knees,
And talk and chat any nonsense your pleases,
As they gaze into eyes that are blue as the seas,
And you hear an occasional "Harry don't tease."

Captain John Milledge, Messrs. M. J. Clarke and Sidney Root, have returned from a short visit to Pevner Springs.

Mrs. Louis W. Thomas, of this city, after a several weeks' visit to her father, in Savannah, has returned home.

Lieutenant C. D. Hoyle, adjutant on General Merch's staff at West Point, and his brother Mr. Frank J. Hoyle, of Knoxville, Tenn., are visiting in Atlanta.

Mr. and Mrs. C. H. White, of Barnesville, have returned home, after spending several days with their brother, Rev. J. M. White, pastor of St. Paul's church.

Music Notes.

There is a marked distinction between noise and a musical sound.

Noise is a confused mixture of sounds; musical sound is a pure, harmonious effect.

Rythm is the ground plan upon which a musical composition proceeds. In language it regulates the plan of words, and in dance it governs the movement of the feet and the inflections of the body.

A sound arouses our attention and impresses our feelings. Let it be the tone of sorrow, the note of joy, the voices of a multitude, the roar of the winds, or the waters, or the soft inflections of the breeze, we are equally awakened to that sense of terror, pleasure or pain which sound creates in us.

There is a gentleman in Atlanta who owns a mule, that as a vocalist, certainly ranks as a loud, rough and rude performer. It is doubtless a relative of the one the poet described as singing in "sonorous octaves, loud and clear," and it is certainly no relation of the mule, of whose ejaculations Haydn copied in his Seventy-sixth Quartette with great success.

BAD BLOOD

SCROFULOUS.

INHERITED.

CONTAGIOUS.

IN 1870 SCROFULOUS ULCERS BROKE OUT ON my body until my breast was one mass of corruption. Some of these ulcers were not less than one and one-half inches in diameter, the edges rough, ragged, and seemingly dead, the cavity open to the bone and filled with offensive matter. Everything known to the medical faculty was tried in vain. Gradually the bone itself became diseased, and then the suffering began in earnest. Bone ulcers began to take the place of those hitherto on the surface. I became a mere wreck. For months at a time could not get my hands to my head because of extreme soreness. Could not turn in bed. Knew not what it was to be an hour even free from pain. Had reason to look upon life itself as a curse. In the summer of 1880, after ten years of this wretched existence, I began to use the CUTICURA REMEDIES, and after two years' persistent use of them the last ulcer has healed. The dread disease has succumbed. All over the breast where once was a mass of corruption is now a healthy skin. My weight has increased from one hundred and twenty-three to one hundred and fifty-six pounds, and the good work is still going on. I feel myself a new man, and all through the CUTICURA REMEDIES.

TO CLEANSE THE BLOOD

Of scrofulous, inherited and contagious humors, and thus remove the most prolific cause of human suffering, to clear the skin of disfiguring blotches, itching tortures, humiliating eruptions, and loats, some sores caused by inherited scrofula, to purify and beautify the skin, and restore the hair so that no trace of disease remain, CUTICURA RESOLVENT, the new Blood Purifier, and CUTICURA and CUTICURA SOAP, the great Skin Cures and Beautifiers, are infallible.

GREAT BLOOD MEDICINES.

The halt has not been told as to the great curative powers of the CUTICURA REMEDIES. I have paid hundreds of dollars for medicines to cure diseases of the blood and skin, and never found anything yet to equal the CUTICURA REMEDIES.

CANCER AND TUMORS Treated scientifically and cured without the knife. Book on treatment sent Free. Drs. Gratigny & Norris, 204 West Fourth St., Cincinnati, O.

Flows from the Maximum Mineral Fountain of Saratoga Springs, and is in the opinion of the most eminent medical men Nature's Sovereign Cure for Constipation, Dyspepsia, Torpid Liver, Defective Condition of the Kidneys, and a most salutary alterative in scrofulous affections. Wherever ladies, gentlemen, and bon vivants every where it has become the standard of dietary expedients, for divining the digestive functions and enabling free livers to frolick with impunity at table. The world of wealth, intelligence and refinement it purifies to its sparkling, naturally pure, and delightful qualities as the beverage incomparable, and accordingly being the surest and speediest source of clear complexions, high health, and exhuberant spirits. Hathorn Springs Water is sold only in glass bottles; four dozen pints are packed in a case. It may be obtained at all hotels, and of druggists, wine merchants, and grocers everywhere.

DUCRO'S ALIMENTARY ELIXIR.

Its principle ingredient, *Pure Meat*, is scientifically formulated with medical remedies, giving it wonderfully stimulating properties; invigorating the vital forces without forcing the digestive organs. In TYPHOID, YELLOW and MALARIAL fevers, it is invaluable, giving strength to overcome these malignant diseases. Highly recommended by leading Physicians of Europe as a tonic for convalescents and Weak Persons, also for hundreds of years. E. FOUGERA & Co., Agents, N. Y. SOLD BY ALL DRUGGISTS.

Out of the Jaws of Death

The gentleman who outlines his case below is a man considerably advanced in life, and is noted for his sterling integrity. His postoffice is Yatesville, Upson county, Ga. The following is

Mr. John Pearson's Statement.

In the spring of 1882 I was attacked with a very bad cough, which continued to grow worse until fall, when I got so weak that I could not get about. I tried a great many kinds of medicine, but continued to grow worse. I was notified that I had consumption, and would probably die. Dr. Holloway finally told me to try Brewer's Lung Restorer. They sent to Ward's store and got a bottle, and I commenced taking it right away. After taking two or three doses I began to improve, and by the time I had used up one bottle I was able to get on my feet again. I am now in excellent health. I am confident that the Lung-Restorer saved my life, and my neighbors are of the same opinion. It is the best Lung Remedy ever made, in my opinion. Dr. H. promised me that he would write to the manufacturers and tell them of the wonderful cure it made in my case.

Statement of Mr. Benj. F. Heandon.

Early in November, 1881, while sewing on the machine, my wife was taken with a severe pain in her side, which was soon followed by hemorrhages from her lungs and a severe cough. Fever commenced; she could neither eat or sleep, and in a few weeks she was reduced to a living skeleton. The attending physician told me that he thought one of her lungs was entirely gone. She could not retain the most delicate nourishment on her stomach. I then agreed with Dr. Sullivan, my family physician, to call Dr. Holloway in consultation. They made a final examination of the patient and pronounced the case hopeless. Dr. Holloway then suggested the Brewer's Lung Restorer as a last resort. I sent for a bottle and gave her a dose. I found that she could retain it on her stomach, and after about the third dose I began to notice some improvement in her condition. I continued the medicine regularly, and by the time she had taken two bottles she was able to walk about the house. She is now in better health than she has enjoyed for several years. I believe the Lung Restorer saved her life. We have a family of six children, and some of them grown.

Mr. Heandon's postoffice is Yatesville, Upson county, Ga. He is a thoroughly reliable man in every particular.
